

## Blue Cross Volunteers Support 90 Service Projects Across Massachusetts on 12th Annual Service Day

*Since Service Day's inception in 2011, Blue Cross has contributed nearly \$11 million of value to local not-for-profits through this annual volunteer day*

BOSTON, Sept. 29, 2022 /PRNewswire/ -- Today, nearly 3,000 [Blue Cross Blue Shield of Massachusetts](#) ("Blue Cross") employees are volunteering to support 90 service projects across Massachusetts focused on creating more equitable, just, and healthy communities as part of the company's 12th annual Service Day.

Blue Cross partnered with 76 not-for-profit organizations to design both in-person and virtual volunteer opportunities that align with the company's health equity work. 2,200 Blue Cross employees are volunteering at community partner sites across the state and 800 are volunteering virtually from home.

"We're proud to support not-for-profits around the state that are working to address health inequities in our communities," said Andrew Dreyfus, president and CEO of Blue Cross. "The idea for Service Day came from our employees. Over the past 12 years it has grown to become our largest company event and one of our most beloved traditions. It is incredible to see the collective impact that can be accomplished in one day to support the critical work of our community partners."

Volunteers participating in-person are supporting 80 projects in 50 cities and towns across Massachusetts focused on addressing the social and environmental conditions affecting the health of children and families. Service projects include creating new outdoor play spaces for children to stay active, harvesting fresh produce to donate to local food pantries, and cleaning beaches and clearing trails to improve access to green space.

Simultaneously, 800 employees are participating from home in 10 virtual projects. Together on Zoom, volunteers are completing projects such as writing letters to seniors isolated at home, packing themed Happy Hope Bags filled with creative activities for hospitalized children and creating lifesaving paracord bracelets for military and first responders.

The company is also partnering with Common Impact to engage 30 employees in virtual skills-based projects, addressing business challenges facing five community partners – About Fresh, East Boston Neighborhood Health Center, Eastie Farm, Parents for Peace, and Shine Initiative.

Projects are chosen based on their alignment with the company's focus on health justice. In addition to sending a group of enthusiastic volunteers to complete the task, Blue Cross also provides a grant to cover the project costs. Since Service Day's inception in 2011, the total value of the company's financial and volunteer support to local not-for-profits is nearly \$11 million.
