NEW YORK, May 16, 2022 /PRNewswire/ -- [BIN: Black Information Network](#), the first and only 24/7 national and local all-news audio service with a Black voice and perspective, and [CareerBuilder](#), the global talent acquisition leader and job marketplace platform, announced today that they are joining forces to launch "**100,000 Careers**," a first-of-its-kind career initiative platform that aims to connect employers who are seeking a highly qualified and diverse workforce with Black American job seekers who are looking to advance to higher levels or start a career.

A critical step toward building wealth within the Black community is by providing resources needed to secure a career that offers stability, important benefits, and a higher income that can grow over time. The mission of the 100,000 Careers initiative is to help people in the Black community find a job and build the career of their dreams. The platform includes tools to help candidates get started, such as job listings, easy resume building, and custom content designed to help Black listeners identify their transferrable skills and discover new careers. The 100,000 Careers platform will be a one-stop-shop for connecting employers with Black American career-seekers looking to advance.

"This strategic partnership directly aligns with our mission of building personal success for all and will guide Black Information Network listeners to a host of tools that connect them to roles that best suit their skills leading to more meaningful careers," said Kristin Kelley, Chief Marketing Officer at CareerBuilder. "This partnership and the 100,000 Careers platform are both vital in bringing a valuable resource and job search experience to the Black community, and employers can now access a larger group of diverse candidates and talented workers."

The platform will leverage the scale of BIN: Black Information Network to promote opportunities across broadcast, podcast, digital and social platforms. Additionally, over 100 iHeartMedia Hip Hop, R&B and Gospel stations are supporting this effort by broadcasting daily career spotlights, real life testimonials, high-frequency broadcast messaging, as well as podcasting and streaming mentions.
