

3M Finalizes Separation of its Food Safety Business and Merger of the Business with Neogen; Accepts Shares Tendered in Exchange Offer

ST. PAUL, Minn., Sept. 1, 2022 [/PRNewswire/](#) -- 3M (NYSE: MMM) announced today both the successful completion of its split-off exchange offer for 3M common stock in connection with the previously announced separation of 3M's food safety business and the closing of the merger of Garden SpinCo Corporation ("SpinCo"), the 3M subsidiary holding the food safety business, with a subsidiary of Neogen Corporation ("Neogen"). Pursuant to the merger, SpinCo is now a wholly-owned subsidiary of Neogen.

In the merger, each share of SpinCo common stock was converted into the right to receive one share of Neogen common stock. As a result, 3M stockholders who tendered shares of 3M common stock in the exchange offer and whose shares were accepted will receive approximately 6.7713 shares of Neogen common stock (subject to the receipt of cash in lieu of fractional shares) for each share of 3M common stock accepted for exchange.

Pursuant to the exchange offer, which expired at 11:59 p.m., New York City time, on August 31, 2022, 3M has accepted 15,989,536 shares of 3M common stock in exchange for 108,269,946 shares of SpinCo common stock. Because more than 15,989,536 shares of 3M common stock were tendered, all shares of SpinCo common stock owned by 3M were distributed in the exchange offer, and no shares were distributed in a pro rata distribution to 3M stockholders. Earlier today, 3M announced a preliminary proration factor of approximately 6.95 percent.

"We believe our Food Safety business will be well positioned with Neogen, and we are pleased to close the transaction," said Mike Roman, 3M chairman and chief executive officer. "By building a global innovator in food safety, the business will bring customers a broader offering of technologies and solutions, while unlocking greater value for shareholders."

In addition to the exchange offer reducing outstanding 3M shares by approximately 16 million shares, or approximately 3% of outstanding shares, 3M also received consideration valued at approximately \$1 billion, prior to closing and other adjustments, that will be deployed in-line with the company's regular capital allocation priorities. The transaction involved a tax-free "Reverse Morris Trust" transaction structure, which is intended to be tax-efficient to 3M and 3M's shareholders for U.S. federal income tax purposes. 3M expects to record a gain in the third quarter of 2022 associated with this transaction and to reflect it as an adjustment in arriving at results, adjusted for special items.

3M employees globally who primarily supported 3M's food safety business will transition with the business in conjunction with the divestiture. The transaction included dedicated food safety manufacturing operations located in Bridgend, U.K.

In a separate statement on July 26, 2022, 3M announced its intent to spin off its Health Care business, resulting in two world-class, public companies well positioned to pursue their respective growth plans. To learn more, view the [press release](#) on 3M's News Center.
