Supplemental Information

With the April 1, 2024 completion of the Solventum spin-off, 3M will report first-quarter 2024 results inclusive of Solventum, similar to the basis on which 3M provided first-quarter guidance during its January earnings conference call. Beginning in the second quarter of 2024, Solventum's historical results will be reported within 3M's financial statements as discontinued operations. 3M plans to initiate its full-year 2024 guidance later in April. Accordingly, this guidance will reflect Solventum as discontinued operations for the full year, including the first quarter of 2024.

3M has posted additional information on its Investor Relations website. This includes a Form 8-K filed earlier today which contains unaudited pro forma financial information reflecting the Solventum spin-off. In addition, 3M posted certain 2023 estimated preliminary financial information that is illustrative as if Solventum were reflected as a discontinued operation. The information is further reflective of certain baselining adjustments that 3M believes may be useful for readers in considering the underlying results on this re-baselined basis. Please read the posted materials at http://investors.3M.com, including the "Explanatory note regarding information in these materials," for more information.
