

Pennsylvania American Water Announces \$22 Million Water Line Upgrades in South Hills Communities

Pipe replacements are scheduled to start in Brentwood Borough and South Park and Union townships next week

PITTSBURGH, Pa. (Feb. 19, 2025) – [Pennsylvania American Water](#) today announced the start of \$22 million in water line upgrade projects that will replace more than 13 miles of water main in Allegheny County to improve reliability for customers, reduce service disruptions and increase water flows for firefighting.

“Providing reliable service to our customers means making continuous investments in our infrastructure,” said Dave Rowland, senior manager of operations, Pennsylvania American Water. “We prioritize projects based on a number of criteria, including the need for larger mains to handle system demands, age of existing pipe, and history of main breaks or service interruptions.”

This spring, company contractors will replace the existing smaller diameter pipes with new, upgraded ductile iron mains along streets in several municipalities, including:

Crews will work on weekdays between 7 a.m. and 5 p.m. Traffic restrictions will be in place during construction. The company expects to complete the main installation, including connecting all customer service lines to the new mains, along with final restoration and paving, later this summer.

During construction, customers might experience temporary service interruptions, discolored water, and/or lower-than-normal water pressure. Crews will work as quickly as possible to shorten the length of

these temporary inconveniences. For more information, contact Pennsylvania American Water's customer service center at 1-800-565-7292.

This infrastructure upgrade project is not only an important investment in public health and safety, it also helps support the economic health of the community. Economic impact studies show that for every \$1 million invested in water infrastructure, upwards of 15 jobs are generated throughout the economy. Statewide, Pennsylvania American Water invested approximately \$675 million in 2024 alone to improve our water and wastewater treatment and pipeline systems, supporting more than 10,125 jobs through these continued investments.
