

## Missouri American Water Highlights Work Zone Awareness Week

Stay alert while crew members are at work

ST. LOUIS, Mo. (April 21, 2025) – Missouri American Water is highlighting National Work Zone Awareness Week, an annual campaign that promotes safe driving in highway work zones from April 21-25, 2025.

“At Missouri American Water, our employees and contractors work daily in and around roadways to help ensure reliable service for our customers,” said Rich Svindland, President, Missouri American Water. “While safety remains a priority, work zones can pose serious risks. National Work Zone Awareness Week emphasizes our shared responsibility to keep roads and workers safe. When you slow down and stay alert in work zones, you’re helping protect lives, including your own.”

Missouri American Water invests millions of dollars into its infrastructure annually and has numerous crews working around the state on any given day. Whether its water and wastewater infrastructure upgrades or routine maintenance and cleaning, Missouri American Water’s top priority is keeping crews and motorists safe.

Missouri American Water provides these simple rules when driving through work zones:

- Stay alert: Pay attention to flaggers, workers, and equipment, and be prepared for sudden stops.
- Slow down: Follow all posted speed limits and adjust for traffic flows and weather conditions.
- Give yourself some space: Leave at least two seconds of braking room between other vehicles.
