

California American Water Completes Acquisition of Bass Lake Water Company

BASS LAKE, Calif. (AUGUST 19, 2025) - California American Water announced today that it has completed its acquisition of the Bass Lake Water Company system. The purchase of the system, which serves approximately 1,000 customers, was previously approved by the California Public Utilities Commission (CPUC) and reflects California American Water's ongoing commitment to strengthening water infrastructure and enhancing service in communities around the state.

"We're thrilled to begin providing Bass Lake customers with high-quality water service," said Kevin Tilden, President, California American Water. "We anticipate a smooth transition of services, delivering valuable experience, expertise, and a comprehensive range of customer service programs provided by California American Water to our new customers."

California American Water will begin to provide water service to Bass Lake customers on August 19, 2025. Residents will receive additional information in the mail from California American Water within the next week to facilitate a smooth transition. Bass Lake residents will be able to take advantage of the company's customer service benefits, including its online account management portal, MyWater. Additional information is also available on a dedicated webpage, Bass Lake Water, on the company's website at californiaamwater.com.

"This agreement is a win for our community," said Steve Wetch, President of Bass Lake Water Company. "By selling the water system to California American Water we're securing the needed expertise to successfully operate our new water treatment plant and make required infrastructure improvements to provide high-quality service. The residents of Bass Lake will benefit from these improvements for decades to come."

This is California American Water's eighth acquisition in the past five years, adding more than 13,000 new water and/or wastewater customers since 2020.
