

Arthrex Corporate Fact Sheet

Company Overview

Arthrex Inc. is a global leader in multispecialty minimally invasive surgical technology, scientific research, manufacturing and medical education. More than 40 years ago, Arthrex pioneered the field of arthroscopy and sports medicine. Today, we develop more than 1000 new products and related procedures annually to advance minimally invasive orthopedics, trauma, spine, cardiothoracic, orthobiologics and arthroplasty innovation worldwide. Arthrex also specializes in the latest 4K multispecialty surgical visualization and OR integration technology solutions.

Arthrex is proud to be a privately held company focused solely on one mission: **Helping Surgeons Treat Their Patients Better®**, which allows for the rapid evaluation of new technologies and ideas, and the freedom to develop products and technology that truly make a difference in people's lives. This mission also drives the company's commitment to delivering innovative solutions, clinical excellence, operational results and value for our customers.

Did You Know...

- Arthrex global headquarters in Naples, Florida is a sprawling, university-style campus that serves as an education destination for health care professionals (HCPs) around the world.
- Arthrex has regional headquarters in Munich, Germany and Singapore, and additional subsidiaries and locations throughout Latin America, Europe and Asia-Pacific.
- Arthrex is proud to manufacture, assemble and package products in America, with three U.S.-based manufacturing facilities in Florida, South Carolina and California.

Studio X – Building for the Future

Studio X enables Arthrex to introduce HCPs to the latest in Arthrex innovation and techniques with interactive and immersive medical education resources and serves as a strategic planning and design center for future ambulatory surgical centers (ASCs). Surgeons and administrators can participate in hands-on demonstrations using the latest Synergy OR integration platform. ASC architectural designs can be visualized in 3D technology and manipulated on the Holodeck Extended Reality (XR) stage, providing an immersive planning experience to visualize and customize every space in real-time. From full OR integration to orthobiologics and Nano arthroscopy treatment rooms, ASCs can be designed and built for emerging technology and the less-invasive procedures of the future.

What Customers Are Saying About Arthrex

“I have great respect for Arthrex’s commitment to thinking outside the box and all the employees who support that value. Their dedication to innovation positively impacts patients and the future of medicine.”

James P. Bradley, MD
Pittsburgh, PA

“Surgeons are drawn to Arthrex because of its approach to helping us solve surgical challenges and push innovation forward.”

Neal ElAttrache, MD
Los Angeles, CA

“Innovative products are what I expect from Arthrex. The technology just keeps getting better and better and we, as surgeons, have to keep up with that pace.”

Patrick A. Smith, MD
Columbia, MO
