

Blue Cross Blue Shield of Massachusetts Releases Statement on Supreme Court Ruling Upholding Affordable Care Act

BOSTON, June 17, 2021 /PRNewswire/ -- In response to the Supreme Court ruling today dismissing the latest challenge to the Affordable Care Act, Andrew Dreyfus, president & CEO of [Blue Cross Blue Shield of Massachusetts](#) (Blue Cross), released the following statement:

We're pleased the Supreme Court ruled to dismiss the challenge to the Affordable Care Act . Today's decision cements one of our country's most important recent pieces of domestic policy legislation, which for the first time dramatically expanded coverage for Americans without health insurance. Right now, 90% of Americans have health coverage through their jobs, the individual market, Medicare and Medicaid.

The Court's decision upholds not just the ACA but the vision that a group of Massachusetts health care leaders, business leaders, advocates and others had in in 2006, to start a movement to change the way we think about health care. At Blue Cross Blue Shield of Massachusetts, we believe health care is a human right, and our company is proud of our work to ensure near-universal coverage in our state.

Now that the law has again been upheld, it's time for our elected leaders to improve the ACA, and create a health care system that is high-quality, more affordable, and equitable. As we've seen throughout the COVID-19 pandemic, it's more important than ever that everyone has access to affordable health care, no matter who you are, where you live or what your health condition may be.
