

Save More Than \$600 on the All-New Motorola Edge+ 2023 When Switching to Boost Mobile

New customers can get Motorola's newest 5G flagship smartphone for just \$199 starting today

Boost Mobile was the first to carry the incredible new [motorola edge+ 2023](#), and now customers can get the best deal available on the new edge+, starting at just \$199.99¹ when they switch their wireless service². And the savings don't stop there, the [motorola edge+ 2022](#) is also available for new Boost Mobile customers starting at only \$49.99³. Customers have until June 26, 2023 to take advantage of these amazing offers.

"We are doubling down on the quality and value we deliver for our customers, with proven device partners like Motorola and their all-new flagship smartphone, the motorola edge+ 2023," said Jonathan Sipling, chief marketing officer, Retail Wireless, DISH Wireless. "Offers like these help our customers experience the latest technology, not just in their smartphone, but also by connecting them to our Boost 5G network to ensure they have the reliability they need and depend on."

Powered by the first-of-its-kind Boost 5G network, the motorola edge+ 2023 gives Boost Mobile customers exclusive access to the latest 5G technology in more than 50 markets nationwide⁴. Combined with our 5G

partner networks, Boost Mobile customers can be sure they will have great 5G coverage on the new motorola edge+.

The motorola edge+ 2023 features a flawless, quad-curved, endless edge design for superior comfort in-hand. It boasts a 6.7-inch pOLED display for a cinema-quality viewing experience, and an incredible 165Hz refresh rate for smoother gaming. Customers can say goodbye to application lags with the device's speedy Snapdragon® 8 Gen 2 processor, which also supports the capture of amazing 8K or 4K HDR10+ video – providing the greatest possible range of color and light. With days of life from the efficient 5100mAh battery⁵, and 512GB of memory, users can create and store all of their favorite content without worry.

Existing Boost Mobile customers aren't left out of the savings. They can upgrade to the 2023 and 2022 motorola edge+ devices for \$249.99 and \$99.99, respectively.
