

## **Boston Scientific Prices Offerings of Common Stock and Mandatory Convertible Preferred Stock**

MARLBOROUGH, Mass., May 21, 2020 /PRNewswire/ -- Boston Scientific Corporation (NYSE: BSX) announced the pricing of concurrent offerings of 25,550,000 shares of its common stock ("Common Stock") at a price to the public of \$34.25 per share and 8,750,000 shares of its 5.50% Mandatory Convertible Preferred Stock, Series A ("Mandatory Convertible Preferred Stock") at a price to the public and liquidation preference of \$100.00 per share. The underwriters have separate 30-day options to purchase up to an additional 3,832,500 shares of Common Stock and up to an additional 1,312,500 shares of Mandatory Convertible Preferred Stock. The offerings are expected to close on May 27, 2020, subject to customary closing conditions.

The net proceeds from the Common Stock offering and the Mandatory Convertible Preferred Stock offering will be approximately \$847.3 million and \$847.3 million, respectively (or approximately \$974.7 million and \$974.6 million, respectively, if the underwriters exercise their options in full), in each case after deducting underwriting discounts and commissions and estimated offering expenses.

Boston Scientific intends to use a portion of the combined net proceeds from the offerings of \$1,694.6 million (or \$1,949.3 million if the underwriters for both offerings exercise their options in full) to repay in full the remaining \$750.0 million outstanding under its \$1.25 billion term loan credit facility maturing on April 20, 2021 and to pay related fees, expenses and premiums, after which it will be terminated. The remaining proceeds will be used for general corporate purposes, which may include refinancing or repayment of other outstanding indebtedness and funding potential future acquisitions and investments.

Unless earlier converted, each share of Mandatory Convertible Preferred Stock will automatically convert on June 1, 2023 (subject to postponement for certain market disruption events, the "mandatory conversion date") into between 2.3834 and 2.9197 shares of Boston Scientific's Common Stock, subject to customary anti-dilution adjustments. The number of shares of Common Stock issuable upon conversion will be determined based on the average volume-weighted average price (VWAP) per share of Common Stock over the 20 consecutive trading day period beginning on, and including, the 21<sup>st</sup> scheduled trading day immediately preceding June 1, 2023.

Dividends on the Mandatory Convertible Preferred Stock will be payable on a cumulative basis when, as and if declared by Boston Scientific's board of directors, at an annual rate of 5.50% on the liquidation preference of \$100.00 per share. If declared, these dividends will be paid in cash, in shares of Common Stock or in a combination of cash and shares of Common Stock, at Boston Scientific's election, subject to certain limitations, on March 1, June 1, September 1 and December 1 of each year, commencing on September 1, 2020 and continuing to, and including, June 1, 2023. Until Boston Scientific amends or terminates its existing credit agreements that contain a restriction on its ability to pay cash dividends on its capital stock, or such restrictions are no longer effective under the terms of such credit agreements, Boston Scientific will pay the relevant dividend in shares of its common stock.

The closing of each offering is not contingent upon the closing of the other offering.
