

## **More Employees Spending Thanksgiving with Coworkers than Ever Before, Finds Annual CareerBuilder Thanksgiving Survey**

**-Twenty-eight percent of workers say they celebrate Thanksgiving with coworkers either in or out of the office, up from 20 percent last year**

**-More than 1 in 5 employees (22 percent) have to work on Thanksgiving**

**-Houston, Dallas and Miami continue to lead other major cities in percentage of workers that spend the holiday with coworkers**

**CHICAGO and ATLANTA - November 21, 2015** - Employees appear to be growing closer to those at work, or find it more difficult to break away from the office for Thanksgiving. More than one in four workers (28 percent) say they celebrate Thanksgiving with coworkers either in or out of the office - a substantial increase over 20 percent in 2015 and 19 percent in 2014.

A new CareerBuilder Thanksgiving survey was conducted nationally online by Harris Poll from August 11 to September 7, 2016 and included more than 3,300 workers across industries and company sizes.

### **Workers Who Celebrate Thanksgiving with Coworkers By:**

#### **U.S. Markets with the Largest Economies**

- Houston: 44 percent

- Leisure and hospitality: 52 percent
- Retail: 47 percent
- Sales: 36 percent
- Health care: 32 percent
- Transportation: 30 percent

## Would You Rather...

When asked if they'd rather spend Thanksgiving Day with coworkers or family, 9-in-10 chose their family – on par with last year.

- Family: 91 percent
- Coworkers: 1 percent
- Neither: 8 percent

## Survey Methodology

This survey was conducted online within the U.S. by Harris Poll on behalf of CareerBuilder among 3,336 U.S. workers (employed full-time, not self-employed, government and non-government) between August 11 and September 7, 2016. Percentages for some questions are based on a subset, based on their responses to certain questions. With a pure probability sample of 3,336, one could say with a 95 percent probability that the overall results have sampling errors of +/- 1.70 percentage points. Sampling error for data from sub-samples is higher and varies.
