

DaVita Inc. 1st Quarter 2021 Results

DENVER, April 29, 2021 /PRNewswire/ -- DaVita Inc. (NYSE: DVA) announced financial and operating results for the quarter ended March 31, 2021.

For the quarter, diluted earnings per share from continuing operations was \$2.09, an increase of 15.5% from the prior year diluted earnings per share from continuing operations and an increase of 14.2% from the prior year adjusted diluted earnings per share from continuing operations. First quarter diluted earnings per share from continuing operations was impacted by the challenges of responding to COVID-19, with an estimated net impact on operating income of approximately \$(35) million. This impact was primarily driven by higher patient mortality due to COVID-19 and the high cost of personal protective equipment, partially offset by a benefit from the temporary suspension of Medicare sequestration cuts.

"We have made incredible progress in our efforts to combat the pandemic," said Javier Rodriguez, CEO of DaVita. "To date almost three fourths of our U.S. dialysis patients have received at least one dose of the COVID-19 vaccine, thanks in large part to having obtained direct allocation of vaccines from the Federal and State governments, as well as the continued dedication of our front-line, caregiving teammates. Our focus on vaccinating our patients helped improve health equity among our patient population at the same time as reducing the risk to patients and teammates."

Financial and operating highlights for the quarter ended March 31, 2021:

- Consolidated revenues were \$2.820 billion.
- Operating income was \$443 million.
- Diluted earnings per share was \$2.09.
- Operating cash flow and free cash flow, both from continuing operations, were \$154 million and \$(17) million, respectively.
- Issued an additional \$1.0 billion aggregate principal amount of our 4.625% senior notes due June 1, 2030 in an unregistered add-on offering.
- Repurchased 2,949,482 shares of our common stock at an average cost of \$109.28 per share.

	2021		2020	
	Amount	Margin	Amount	Margin
Operating income:	(dollars in millions)			
Operating income	\$ 443	15.7 %	\$ 465	16.4 %

U.S. dialysis metrics:

Volume: Total U.S. dialysis treatments for the first quarter of 2021 were 7,286,934, or an average of 94,636 treatments per day, representing a per day decline of (1.3)% and (2.3)% compared to the fourth quarter of 2020 and first quarter of 2020, respectively. Normalized non-acquired treatment growth in the first quarter of 2021 compared to the first quarter of 2020 was (2.2)%.

Three months ended

	March 31, 2021	December 31, 2020	Quarter change
Per treatment metrics:			
Revenue	\$ 354.50	\$ 351.78	\$ 2.72
Patient care costs	\$ 238.69	\$ 245.06	\$ (6.37)
General and administrative	\$ 30.33	\$ 31.80	\$ (1.47)

Primary drivers of the changes in the table above were as follows:

Revenue: The quarter change was primarily due to favorable changes in government rates related to an increase in the Medicare base rate in 2021 and the inclusion of calcimimetics in the Medicare bundle, favorable changes in government mix due to shifts to Medicare Advantage plans, as well as favorable changes in commercial mix and increased hospital inpatient dialysis revenue, partially offset by a seasonal decline from co-insurance and deductibles.

Patient care costs: The quarter change was primarily due to a decrease in COVID-19-related expenses, including a decrease in compensation and medical supply expenses that had been driven higher in the fourth quarter of 2020 by the winter COVID-19 surge, a decrease in utilities expense driven by our virtual power purchase arrangements, as well as decreases in health benefit expenses, pharmaceutical unit costs and other direct operating expenses associated with our dialysis centers. These decreases were partially offset by an increase in labor costs due to lower productivity levels at our dialysis centers and a seasonal increase in payroll taxes.

General and administrative: The quarter change was primarily due to decreases in costs related to COVID-19, including compensation expenses, as well as decreases in contributions to our charitable foundation and professional fees.

Certain items impacting the quarter:

Share repurchases: During the three months ended March 31, 2021, we repurchased 2,949,482 shares our common stock for \$322 million, at an average cost of \$109.28 per share.

Subsequent to March 31, 2021 through April 28, 2021, we repurchased 990,701 shares of our common stock for \$109 million, at an average cost of \$109.91 per share.

Income from continuing operations attributable to DaVita Inc. ⁽¹⁾	26.4 %

(1) For definitions of non-GAAP financial measures, see the note titled "Note on Non-GAAP Financial Measures" and related reconciliations beginning on page 14.

Center activity: As of March 31, 2021, we provided dialysis services to a total of approximately 238,900 patients at 3,150 outpatient dialysis centers, of which 2,827 centers were located in the United States and 323 centers were located in ten countries outside of the United States. During the first quarter of 2021, we opened a total of 18 new dialysis centers and closed seven dialysis centers in the United States. We also acquired three dialysis centers, opened two dialysis centers and closed three dialysis centers outside of the United States during the first quarter of 2021.

Outlook:

The following forward-looking measures and the underlying assumptions involve significant known and unknown risks and uncertainties, including those described below, and actual results may vary materially from these forward-looking measures. In particular, the widespread impact of the COVID-19 pandemic continues to generate significant risk and uncertainty, and as a result, our future results could vary materially from the guidance provided below. We do not provide guidance for operating income or diluted net income from continuing operations per share attributable to DaVita Inc. on a basis consistent with United States generally accepted accounting principles (GAAP) nor a reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures on a forward-looking basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These non-GAAP financial measures do not include certain items, including foreign currency fluctuations, which may be significant.

We will be holding a conference call to discuss our results for the first quarter ended March 31, 2021, on April 29, 2021, at 8:00 p.m. Eastern Time. To join the conference call, please dial (877) 918-6630 from the U.S. or (517) 308-9042 from outside the U.S., and provide the operator the password 'Earnings'. A replay of the conference call will be available on our website at investors.davita.com for the following 30 days.

Forward looking statements

DaVita Inc. and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA), including statements in this release, filings with the Securities and Exchange Commission (SEC), reports to stockholders and in meetings with investors and analysts. All statements in this release, during the related presentation or other meetings, other than statements of historical fact, are forward-looking statements and as such are intended to be covered by the safe harbor for "forward-looking statements" provided by the PSLRA. These forward-looking statements could include, among other things, DaVita's response to and the expected future impacts of the novel coronavirus (COVID-19), including statements about our balance sheet and liquidity, our expenses and expense offsets, revenues, billings and collections, potential need, ability or willingness to use any funds under government relief programs, availability or cost of supplies, treatment volumes, mix expectation, such as the percentage or number of patients under commercial insurance, the availability, acceptance, impact and administration of COVID-19 vaccines and other treatments or therapies, and overall impact on our patients and teammates, as well as other statements regarding our future operations, financial condition and prospects, expenses, strategic initiatives, government and commercial payment rates, expectations related to value-based care and Medicare Advantage plan enrollment and our ongoing stock repurchase program, and statements related to our guidance and expectations for future periods and the assumptions underlying any such projections. All statements in this release, other than statements of historical fact, are forward-looking statements. Without limiting the foregoing, statements including the words "expect," "intend," "will," "could," "plan," "anticipate," "believe," "forecast," "guidance," "outlook," "goals," and similar expressions are intended to identify forward-looking statements. These forward-looking statements are based on DaVita's current expectations and are based solely on information available as of the date of this release. DaVita undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of changed circumstances, new information, future events or otherwise, except as may be required by law. Actual future events and results could differ materially from any forward-looking statements due to numerous factors that involve substantial known and unknown risks and uncertainties. These risks and uncertainties include, among other things:

- the continuing impact of the dynamic and evolving COVID-19 pandemic, including, without limitation, on our patients, teammates, physician partners, suppliers, business, operations, reputation, financial condition and results of operations; the government's response to the COVID-19 pandemic; the availability, acceptance, impact and efficacy of COVID-19 vaccines and other treatments or therapies; further spread or resurgence of the virus, including as a result of the emergence of new strains of the virus; the continuing impact of the pandemic on our revenue and non-acquired growth due to lower treatment volumes; the consequences of an extended economic downturn resulting from the impacts of COVID-19, such as a potential negative impact on our commercial mix, which may persist even after the pandemic subsides; and continuing COVID-19-related costs, such as costs to procure equipment and clinical supplies and higher salary and wage expense, any of which may also have the effect of heightening many of the other risks and uncertainties discussed below;*
- the concentration of profits generated by higher-paying commercial payor plans for which there is continued downward*

- pressure on average realized payment rates, and a reduction in the number or percentage of our patients under such plans, including, without limitation, as a result of restrictions or prohibitions on the use and/or availability of charitable premium assistance, which may result in the loss of revenues or patients, or our making incorrect assumptions about how our patients will respond to any change in financial assistance from charitable organizations;*
- noncompliance by us or our business associates with any privacy or security laws or any security breach by us or a third party involving the misappropriation, loss or other unauthorized use or disclosure of confidential information;*
 - the extent to which the ongoing implementation of healthcare reform, or changes in or new legislation, regulations or guidance, enforcement thereof or related litigation result in a reduction in coverage or reimbursement rates for our services, a reduction in the number of patients enrolled in higher-paying commercial plans or that are enrolled in or select Medicare Advantage plans or other material impacts to our business; or our making incorrect assumptions about how our patients will respond to any such developments;*
 - a reduction in government payment rates under the Medicare End Stage Renal Disease program or other government-based programs and the impact of the Medicare Advantage benchmark structure;*
 - risks arising from potential changes in laws, regulations or requirements applicable to us, such as potential and proposed federal and/or state legislation, regulation, ballot, executive action or other initiatives, including those related to healthcare and/or labor matters, such as AB 290 and AB 650 in California and HB 2322 in Oregon;*
 - the impact of the political environment and related developments on the current healthcare marketplace and on our business, including with respect to the future of the Affordable Care Act, the exchanges and many other core aspects of the current healthcare marketplace, as well as the composition of the U.S. Supreme Court and the new presidential administration and congressional majority;*
 - our ability to successfully implement our strategies with respect to home-based dialysis, value-based care and/or integrated kidney care, including maintaining our existing business and further developing our capabilities in a complex and highly regulated environment;*
 - changes in pharmaceutical practice patterns, reimbursement and payment policies and processes, or pharmaceutical pricing, including with respect to hypoxia inducible factors;*
 - legal and compliance risks, such as our continued compliance with complex government regulations;*
 - continued increased competition from dialysis providers and others, and other potential marketplace changes;*
 - our ability to maintain contracts with physician medical directors, changing affiliation models for physicians, and the emergence of new models of care introduced by the government or private sector that may erode our patient base and reimbursement rates, such as accountable care organizations, independent practice associations and integrated delivery systems;*
 - our ability to complete acquisitions, mergers or dispositions that we might announce or be considering, on terms favorable to us or at all, or to integrate and successfully operate any business we may acquire or have acquired, or to successfully expand our operations and services in markets outside the United States, or to businesses outside of dialysis;*
 - the variability of our cash flows, including without limitation any extended billing or collections cycles; the risk that we may not be able to generate or access sufficient cash in the future to service our indebtedness or to fund our other liquidity needs; and the risk that we may not be able to refinance our indebtedness as it becomes due, on terms favorable to us or at all;*
 - factors that may impact our ability to repurchase stock under our stock repurchase program and the timing of any such stock repurchases, as well as our use of a considerable amount of available funds to repurchase stock;*
 - risks arising from the use of accounting estimates, judgments and interpretations in our financial statements;*
 - impairment of our goodwill, investments or other assets; and*
 - uncertainties associated with the other risk factors set forth in Part I, Item 1A. of our Annual Report on Form 10-K for the year ended December 31, 2020 and the risks and uncertainties discussed in any subsequent reports that we file or furnish with the SEC from time to time.*

The financial information presented in this release is unaudited and is subject to change as a result of subsequent events or adjustments, if any, arising prior to the filing of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2021.

Certain columns, rows or percentages may not sum or recalculate due to the presentation of rounded numbers.

- (1) General and administrative expenses include certain corporate support, long-term incentive compensation and charitable contributions.
- (2) These are non-GAAP financial measures. For a reconciliation of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, and for a definition of adjusted amounts, see attached reconciliation schedules.

- (3) The reported operating income (loss) for the three months ended March 31, 2021, December 31, 2020 and March 31, 2020, includes foreign currency gains (losses) embedded in equity method income recognized from our Asia Pacific joint venture of approximately \$2.7, \$(6.0) and \$9.7, respectively.
- (4) Normalized non-acquired treatment growth reflects year-over-year growth in treatment volume, adjusted to exclude acquisitions and other similar transactions, and further adjusted to normalize for the number and mix of treatment days in a given quarter versus the prior year quarter.
- (5) The debt amounts as of March 31, 2021, December 31, 2020 and March 31, 2020 presented exclude approximately \$65.2, \$77.7 and \$68.8, respectively, of debt discount, premium and other deferred financing costs related to our senior secured credit facilities and senior notes in effect or outstanding at that time.

SUPPLEMENTAL FINANCIAL DATA-continued
(unaudited)
(dollars in millions)

Note 1: Calculation of the Leverage Ratio

Under our senior secured credit facilities (the Credit Agreement) dated August 12, 2019, the leverage ratio is defined as (a) all funded debt plus the face amount of all letters of credit issued, minus unrestricted cash and cash equivalents (including short-term investments) not to exceed \$750 divided by (b) "Consolidated EBITDA." The leverage ratio determines the interest rate margin payable by the Company for its Term Loan A and revolving line of credit under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The calculation below is based on the last twelve months of "Consolidated EBITDA," as of the end of the reported period and pro forma for acquisitions or divestitures that occurred during the period, and "Consolidated net debt" at the end of the reported period, each as defined in the Credit Agreement. The Company's management believes the presentation of "Consolidated EBITDA" is useful to investors to enhance their understanding of the Company's leverage ratio under its Credit Agreement. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for the ratio of total debt to operating income, determined in accordance with GAAP. The Company's calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures of other companies.

Maximum leverage ratio permitted under the Credit Agreement	<u>5.00x</u>	<u>5.00x</u>	<u>5.00x</u>

Certain columns or rows may not sum or recalculate due to the presentation of rounded numbers.

- (1) The net income measure presented is our net income from continuing operations attributable to DaVita Inc., since the Credit Agreement requires divestitures to be reflected on a pro forma basis for our leverage ratio calculation, and this measure of net income already excludes our discontinued operations divested.

- (2) The debt amounts as of March 31, 2021, December 31, 2020 and March 31, 2020 presented exclude approximately \$65.2, \$77.7, and \$68.8, respectively, of debt discount, premium and other deferred financing costs related to our senior secured credit facilities and senior notes in effect at that time.
- (3) This excludes amounts not readily convertible to cash related to the Company's non-qualified deferred compensation plans for all periods presented. The Credit Agreement limits the amount deducted for cash and cash equivalents, including short-term investments, to the lesser of all unrestricted cash and cash equivalents of the Company or \$750.

RECONCILIATIONS FOR NON-GAAP MEASURES
(unaudited)

Note on Non-GAAP Financial Measures

As used in this press release, the term "adjusted" refers to non-GAAP measures as follows, each as reconciled to its most comparable GAAP measure as presented in the non-GAAP reconciliations in the notes to this press release: (i) for income measures, the term "adjusted" refers to operating performance measures that exclude certain items such as impairment charges, (gain) loss on ownership changes, restructuring charges, accruals for legal matters and debt prepayment and refinancing charges; and (ii) the term "effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc." represents the Company's effective tax rate excluding applicable non-GAAP items and noncontrolling owners' income, which primarily relates to non-tax paying entities.

These non-GAAP or "adjusted" measures are presented because management believes these measures are useful adjuncts to GAAP results. However, these non-GAAP measures should not be considered alternatives to the corresponding measures determined under GAAP.

Specifically, management uses adjusted operating income, adjusted net income from continuing operations attributable to DaVita Inc. and adjusted diluted net income from continuing operations per share attributable to DaVita Inc. to compare and evaluate our performance period over period and relative to competitors, to analyze the underlying trends in our business, to establish operational budgets and forecasts and for incentive compensation purposes. We believe these non-GAAP measures also are useful to investors and analysts in evaluating our performance over time and relative to competitors, as well as in analyzing the underlying trends in our business. As a result, adjusting for these amounts allows for comparison to our normalized prior period results.

In addition, the effective income tax rate on income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income, which primarily relates to non-tax paying entities.

The effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income and certain non-deductible and other charges which we do not believe are indicative of our ordinary results. Accordingly, we believe these adjusted effective income tax rates are useful to management, investors and analysts in evaluating our performance and establishing expectations for income taxes incurred on our ordinary results attributable to DaVita Inc.

Finally, free cash flow from continuing operating represents net cash provided by operating activities from continuing operations less distributions to noncontrolling interests and all capital expenditures (including development capital expenditures, routine maintenance and information technology); plus contributions from noncontrolling interests and proceeds from the sale of self-developed properties. Management uses this measure to assess our ability to fund acquisitions and meet our debt service obligations and we believe this measure is equally useful to investors and analysts as an adjunct to cash flows from operating activities from continuing operations and other measures under GAAP.

It is important to bear in mind that these non-GAAP "adjusted" measures are not measures of financial performance or liquidity under GAAP and should not be considered in isolation from, nor as substitutes for, their most comparable GAAP measures.

The following Notes 2 through 4 provide reconciliations of the non-GAAP financial measures presented in this press release to their most comparable GAAP measures.
