

DaVita Inc. 1st Quarter 2022 Results

DENVER, May 5, 2022 [PRNewswire/](#) -- DaVita Inc. (NYSE: DVA) announced financial and operating results for the quarter ended March 31, 2022.

For the quarter, diluted earnings per share was \$1.61, a decrease of (10.1)% from the prior quarter. First quarter 2022 diluted earnings per share was impacted by continued volume pressures from COVID-19, including excess patient mortality and higher missed treatments as a result of the Omicron variant. Additionally, first quarter diluted earnings per share was impacted by higher than normal wage rate increases.

"It is an interesting time right now, as our country and world are facing a unique portfolio of one-time events all happening at the same time," said Javier Rodriguez, CEO of DaVita. "As our organization works through these challenges, I think it is important to keep in mind why DaVita exists — we are a patient focused organization that provides life-sustaining care to over 240,000 people in twelve countries."

Financial and operating highlights for the quarter ended March 31, 2022:

- Consolidated revenues were \$2.818 billion.
- Operating income was \$338 million.
- Diluted earnings per share was \$1.61.
- Operating cash flow and free cash flow were \$322 million and \$147 million, respectively.
- Repurchased 2.1 million shares of our common stock at an average cost of \$110.90 per share.

U.S. dialysis metrics:

Volume: Total U.S. dialysis treatments for the first quarter of 2022 were 7,109,788, or an average of 92,335 treatments per day, representing a per day change of (2.2)% and (2.4)% compared to the fourth quarter of 2021 and first quarter of 2021, respectively. Normalized non-acquired treatment growth in the first quarter of 2022 compared to the first quarter of 2021 was (1.9)%.

| | Three months ended | | | Quarter change | Three months ended | | Year to date change |
|----------------------------------|---|-------------------|----------------|----------------|--------------------|----------------|---------------------|
| | March 31, 2022 | December 31, 2021 | March 31, 2021 | | March 31, 2022 | March 31, 2021 | |
| | (dollars in millions, except per treatment data) | | | | | | |
| Revenue per treatment | \$ 361.35 | \$ 361.70 | \$ 361.35 | \$ (0.35) | \$ 354.50 | \$ 6.85 | |
| Patient care costs per treatment | \$ 252.61 | \$ 248.12 | \$ 252.61 | \$ 4.49 | \$ 238.69 | \$ 13.92 | |
| General and administrative | \$ 217 | \$ 243 | \$ 217 | \$ (26) | \$ 221 | \$ (4) | |

Primary drivers of the changes in the table above were as follows:

Revenue: The quarter change was driven by a seasonal decline from co-insurance and deductibles, partially offset by an increase in the Medicare base rate in 2022, increases in commercial rate and mix, favorable changes due to the continued shift to Medicare Advantage

plans and a seasonal increase from hospital inpatient dialysis treatments. The year to date change was primarily driven by increases in the Medicare base rate in 2022 and commercial mix, as well as favorable changes due to the continued shift to Medicare Advantage plans.

Patient care costs: The quarter change was primarily due to an increase in compensation expenses driven by increased wage rates and seasonal increases in payroll taxes. In addition, our fixed other direct operating expenses in our dialysis centers negatively impacted patient care costs per treatment due to fewer number of treatments in the first quarter of 2022. These increases were partially offset by decreased health benefit expenses, pharmaceutical unit costs and medical supplies expense. The year to date change was primarily due to compensation expenses driven by increased wage rates, as well as increases in fixed other direct operating expenses associated with our dialysis centers, as described above. Other drivers of this change include increases in utilities expense resulting from lower expense in the first quarter of 2021 related to our virtual power purchase arrangements, medical supplies expense, costs related to management meetings and insurance expense. These increases were partially offset by decreased pharmaceutical unit costs and professional fees.

General and administrative: The quarter change was due to declines in compensation expense, professional fees, office supplies, other purchased services and health benefit expenses. The year to date change was due to a decline in professional fees, partially offset by increased costs related to management meetings.

Share repurchases: During the three months ended March 31, 2022, we repurchased 2.1 million shares of our common stock for \$233 million, at an average cost of \$110.90 per share.

Subsequent to March 31, 2022 through May 4, 2022, we repurchased 0.8 million shares of our common stock for \$88 million, at an average cost of \$110.28 per share.

Center activity: As of March 31, 2022, we provided dialysis services to a total of approximately 241,800 patients at 3,155 outpatient dialysis centers, of which 2,809 centers were located in the United States and 346 centers were located in 11 countries outside of the United States. During the first quarter of 2022, we opened a total of nine new dialysis centers and closed 15 dialysis centers in the United States. We also acquired three dialysis centers and opened four dialysis centers outside of the United States during the first quarter of 2022.

Integrated kidney care (IKC): As of March 31, 2022, we have approximately 40,000 patients in risk-based integrated care arrangements representing approximately \$3.3 billion in annualized medical spend. We have an additional 8,000 patients in other integrated care arrangements; we do not include the medical spend for these patients in this annualized medical spend estimate. See additional description of these metrics at Note 2.

Outlook:

The following forward-looking measures and the underlying assumptions involve significant known and unknown risks and uncertainties, including those described below, and actual results may vary materially from these forward-looking measures. For example, the widespread impact of the COVID-19 pandemic continues to generate significant risk and uncertainty, and as a result, our future results could vary materially from the guidance provided below. We do not provide guidance for operating income or diluted net income per share attributable to DaVita Inc. on a basis consistent with United States generally accepted accounting principles (GAAP) nor a reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures on a forward-looking basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These non-GAAP financial measures do not include certain items, including foreign currency fluctuations, which may be significant. The guidance for our effective income tax rate on adjusted income attributable to DaVita Inc. also excludes the amount of third-party owners' income and related taxes attributable to non-tax

paying entities.

| | 2022 guidance | |
|---|--|----------|
| | Low | High |
| | (dollars in millions, except per share data) | |
| Adjusted operating income | \$ 1,525 | \$ 1,675 |
| Adjusted diluted net income per share attributable to DaVita Inc. | \$ 7.50 | \$ 8.50 |
| Free cash flow | \$ 850 | \$ 1,100 |

We will be holding a conference call to discuss our results for the first quarter ended March 31, 2022, on May 5, 2022, at 5:00 p.m. Eastern Time. To join the conference call, please dial (877) 918-6630 from the U.S. or (517) 308-9042 from outside the U.S., and provide the operator the password 'Earnings'. A replay of the conference call will be available on our website at investors.davita.com for the following 30 days.

Forward looking statements

DaVita Inc. and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA), including statements in this release, filings with the Securities and Exchange Commission (SEC), reports to stockholders and in meetings with investors and analysts. All statements in this release, during the related presentation or other meetings, other than statements of historical fact, are forward-looking statements and as such are intended to be covered by the safe harbor for "forward-looking statements" provided by the PSLRA. These forward-looking statements could include, among other things, DaVita's response to and the expected future impacts of the novel coronavirus (COVID-19), including statements about our balance sheet and liquidity, our expenses and expense offsets, revenues, billings and collections, availability or cost of supplies, treatment volumes, mix expectation, such as the percentage or number of patients under commercial insurance, the availability, acceptance, impact, administration and efficacy of COVID-19 vaccines, treatments and therapies, the continuing impact on the U.S. and global economies, unemployment and labor market conditions, and overall impact on our patients and teammates, as well as other statements regarding our future operations, financial condition and prospects, expenses, strategic initiatives, government and commercial payment rates, expectations related to value-based care, integrated kidney care, and Medicare Advantage plan enrollment and our ongoing stock repurchase program, and statements related to our guidance and expectations for future periods and the assumptions underlying any such projections. All statements in this release, other than statements of historical fact, are forward-looking statements. Without limiting the foregoing, statements including the words "expect," "intend," "will," "could," "plan," "anticipate," "believe," "forecast," "guidance," "outlook," "goals," and similar expressions are intended to identify forward-looking statements. These forward-looking statements are based on DaVita's current expectations and are based solely on information available as of the date of this release. DaVita undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of changed circumstances, new information, future events or otherwise, except as may be required by law. Actual future events and results could differ materially from any forward-looking statements due to numerous factors that involve substantial known and unknown risks and uncertainties. These risks and uncertainties include, among other things:

- the continuing impact of the dynamic and evolving COVID-19 pandemic, including, without limitation, on our patients, teammates, physician partners, suppliers, business, operations, reputation, financial condition and results of operations; the government's response to the COVID-19 pandemic, including, among other things, federal, state and local vaccine mandates or surveillance testing requirements and the extent to which they may ultimately be applicable to us; the pandemic's continuing impact on the U.S. and global economies, unemployment, labor market conditions, inflation and evolving monetary policies; the availability, acceptance, impact and efficacy of COVID-19 vaccines, treatments and therapies; further spread or resurgence of the virus, including as a result of the emergence of new strains of the virus, such as the Omicron variant or Omicron BA2 subvariant; the continuing impact of the pandemic on our revenue and non-acquired growth due to lower treatment volumes; COVID-19's impact on the chronic kidney disease (CKD) population and our patient population including on the mortality of these patients; any potential negative impact on our commercial mix or the number of our patients covered by commercial insurance plans; continued increased COVID-19-related costs; supply chain challenges and disruptions, including with respect to our clinical supplies; and higher salary and wage expense driven in part by labor market conditions and a high demand for our clinical personnel, any of which may also have the effect of heightening many of the other risks and uncertainties discussed below, and in many cases, the impact of the pandemic and the aforementioned global economic conditions on our business may persist after the pandemic subsides;
- the extent to which the ongoing implementation of healthcare reform, or changes in or new legislation, regulations or guidance, enforcement thereof or related litigation result in a reduction in coverage or reimbursement rates for our services, a reduction in the number of patients enrolled in higher-paying commercial plans or that are enrolled in or select Medicare Advantage plans or other material impacts to our business or operations; or our making incorrect assumptions about how our patients will respond to any such developments;
- risks arising from potential changes in laws, regulations or requirements applicable to us, such as potential and proposed federal

and/or state legislation, regulation, ballot, executive action or other initiatives, including, without limitation, those related to healthcare and/or labor matters, such as AB 290 in California;

- *the concentration of profits generated by higher-paying commercial payor plans for which there is continued downward pressure on average realized payment rates, and a reduction in the number or percentage of our patients under such plans, including, without limitation, as a result of restrictive plan designs, restrictions or prohibitions on the use and/or availability of charitable premium assistance, which may result in the loss of revenues or patients, or our making incorrect assumptions about how our patients will respond to any change in financial assistance from charitable organizations;*
- *our ability to successfully implement our strategies with respect to integrated kidney care and value-based care initiatives and home based dialysis in the desired time frame and in a complex, dynamic and highly regulated environment, including, among other things, maintaining our existing business; meeting growth expectations; recovering our investments; entering into agreements with payors, third party vendors and others on terms that are competitive and, as appropriate, prove actuarially sound; structuring operations, agreements and arrangements to comply with evolving rules and regulations; finding, training and retaining appropriate staff; and further developing our integrated care and other capabilities to provide competitive programs at scale;*
- *a reduction in government payment rates under the Medicare End Stage Renal Disease program, state Medicaid or other government-based programs and the impact of the Medicare Advantage benchmark structure;*
- *our ability to attract, retain and motivate teammates and our ability to manage operating cost increases or productivity decreases whether due to union organizing activities, legislative or other changes, demand for labor, volatility and uncertainty in the labor market, the current challenging labor market conditions, or other reasons;*
- *U.S. and global economic and marketplace conditions, inflation, unemployment, labor market conditions, and evolving monetary policies, and our ability to respond to these changing conditions, including our ability to successfully implement cost savings innovations in response;*
- *noncompliance by us or our business associates with any privacy or security laws or any security breach by us or a third party involving the misappropriation, loss or other unauthorized use or disclosure of confidential information;*
- *legal and compliance risks, such as our continued compliance with complex, and at times, evolving government regulations and requirements;*
- *the impact of the political environment and related developments on the current healthcare marketplace and on our business, including with respect to the Affordable Care Act, the exchanges and many other core aspects of the current healthcare marketplace, as well as the composition of the U.S. Supreme Court and the current presidential administration and congressional majority;*
- *changes in pharmaceutical practice patterns, reimbursement and payment policies and processes, or pharmaceutical pricing, including with respect to hypoxia inducible factors, among other things;*
- *our ability to develop and maintain relationships with physicians and hospitals, changing affiliation models for physicians, and the emergence of new models of care or other initiatives introduced by the government or private sector that, among other things, may erode our patient base and impact reimbursement rates;*
- *our ability to complete acquisitions, mergers, dispositions, joint ventures or other strategic transactions that we might announce or be considering, on terms favorable to us or at all, or to successfully integrate any acquired businesses, or to successfully operate any acquired businesses, joint ventures or other strategic transactions, to successfully expand our operations and services in markets outside the United States, or to businesses or products outside of dialysis services;*
- *continued increased competition from dialysis providers and others, and other potential marketplace changes, including without limitation increased investment in and availability of funding to new entrants in the dialysis and pre-dialysis marketplace;*
- *the variability of our cash flows, including without limitation any extended billing or collections cycles; the risk that we may not be able to generate or access sufficient cash in the future to service our indebtedness or to fund our other liquidity needs; and the risk that we may not be able to refinance our indebtedness as it becomes due, on terms favorable to us or at all;*
- *factors that may impact our ability to repurchase stock under our stock repurchase program and the timing of any such stock repurchases, as well as our use of a considerable amount of available funds to repurchase stock;*
- *risks arising from the use of accounting estimates, judgments and interpretations in our financial statements;*
- *impairment of our goodwill, investments or other assets;*
- *our aspirations, goals and disclosures related to environmental, social and governance (ESG) matters, including evolving regulatory requirements affecting ESG standards, measurements and reporting requirements; the availability of suppliers that can meet our*

sustainability standards; and our ability to recruit, develop and retain diverse talent in our labor markets; and

- the other risk factors, trends and uncertainties set forth in our Annual Report on Form 10-K for the year ended December 31, 2021 and the risks and uncertainties discussed in any subsequent reports that we file or furnish with the SEC from time to time.

The financial information presented in this release is unaudited and is subject to change as a result of subsequent events or adjustments, if any, arising prior to the filing of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2022.

Certain columns, rows or percentages may not sum or recalculate due to the presentation of rounded numbers.

- (1) General and administrative expenses include certain corporate support and long-term incentive compensation.
- (2) These are non-GAAP financial measures. For a reconciliation of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, and for a definition of adjusted amounts, see attached reconciliation schedules.
- (3) The reported operating income for the three months ended March 31, 2022, December 31, 2021 and March 31, 2021 includes foreign currency gains (losses) embedded in equity method income recognized from our Asia Pacific joint venture of approximately \$0.3, \$(1.0) and \$2.7, respectively.
- (4) Normalized non-acquired treatment growth reflects year-over-year growth in treatment volume, adjusted to exclude acquisitions and other similar transactions, and further adjusted to normalize for the number and mix of treatment days in a given quarter versus the prior year quarter.
- (5) The debt amounts as of March 31, 2022, December 31, 2021 and March 31, 2021 presented exclude approximately \$53.6, \$56.7 and \$65.2, respectively, of debt discount, premium and other deferred financing costs related to our senior secured credit facilities and senior notes in effect or outstanding at that time.

DAVITA INC.
SUPPLEMENTAL FINANCIAL DATA-continued
(unaudited)
(dollars in millions)

Note 1: Calculation of the Leverage Ratio

Under our senior secured credit facilities (the Credit Agreement) dated August 12, 2019, the leverage ratio is defined as (a) all funded debt plus the face amount of all letters of credit issued, minus unrestricted cash and cash equivalents (including short-term investments) not to exceed \$750 divided by (b) "Consolidated EBITDA." The leverage ratio determines the interest rate margin payable by the Company for its Term Loan A and revolving line of credit under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The calculation below is based on the last twelve months of "Consolidated EBITDA," as of the end of the reported period and pro forma for acquisitions or divestitures that occurred during the period, and "Consolidated net debt" at the end of the reported period, each as defined in the Credit Agreement. The Company's management believes the presentation of "Consolidated EBITDA" is useful to investors to enhance their understanding of the Company's leverage ratio under its Credit Agreement. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for the ratio of total debt to operating income, determined in accordance with GAAP. The Company's calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures of other companies.

| | Twelve months ended | | |
|--|---------------------|----------------------|-------------------|
| | March 31, 2022 | December 31, 2021 | March 31, 2021 |

| Income taxes | 279 | 307 | 308 |
| Interest expense | 268 | 261 | 255 |
| Depreciation and amortization | 688 | 681 | 641 |
| Noncontrolling interests and equity investment income, net | 223 | 233 | 247 |
| Stock-settled stock-based compensation | 102 | 101 | 94 |
| Debt prepayment, refinancing and redemption charges | — | — | 86 |
| Loss on changes in ownership interest, net | — | — | 16 |
| Other | 20 | 13 | 29 |

| "Consolidated EBITDA" | \$ 2,481 | \$ 2,574 | \$ 2,468 |
|---|-------------------|----------------------|-------------------|
| | March 31, 2022 | December 31, 2021 | March 31, 2021 |
| Total debt, excluding debt discount and other deferred financing costs ⁽²⁾ | \$ 8,927 | \$ 8,965 | \$ 9,063 |
| Letters of credit issued | 108 | 69 | 65 |
| | 9,035 | 9,034 | 9,128 |
| Less: Cash and cash equivalents including short-term investments ⁽³⁾ | (344) | (481) | (750) |
| Consolidated net debt | \$ 8,691 | \$ 8,554 | \$ 8,378 |
| Last twelve months "Consolidated EBITDA" | \$ 2,481 | \$ 2,574 | \$ 2,468 |
| Leverage ratio | 3.50x | 3.32x | 3.39x |
| Maximum leverage ratio permitted under the Credit Agreement | 5.00x | 5.00x | 5.00x |

Certain columns or rows may not sum or recalculate due to the presentation of rounded numbers.

- (1) The net income measure presented is our net income attributable to DaVita Inc., since the Credit Agreement requires divestitures to be reflected on a pro forma basis for our leverage ratio calculation, and this measure of net income already excludes our discontinued operations divested.
- (2) The debt amounts as of March 31, 2022, December 31, 2021 and March 31, 2021 presented exclude approximately \$53.6, \$56.7 and \$65.2, respectively, of debt discount, premium and other deferred financing costs related to our senior secured credit facilities and senior notes in effect at that time.
- (3) This excludes amounts not readily convertible to cash related to the Company's non-qualified deferred compensation plans for all periods presented. The Credit Agreement limits the amount deducted for cash and cash equivalents, including short-term investments, to the lesser of all unrestricted cash and cash equivalents, including short-term investments of the Company or \$750.

DAVITA INC.
INTEGRATED CARE METRICS
(unaudited)

Note 2: Integrated Care Metrics

Our integrated kidney care (IKC) business is party to a variety of risk-based integrated care and disease management arrangements, including value-based care (VBC) contracts under which we assume full or shared financial risk for the total medical cost of care for patients below or above a benchmark.

The aggregate amount of medical spend associated with risk-based integrated care arrangements that we disclose includes both medical costs included in our reported expenses for certain risk-based arrangements (such as its special needs plans), as well as the aggregate estimated benchmark amount above or below which we will incur profit or loss on for VBC arrangements under which third-party medical costs are not included in our reported results. This metric is an annualization of our estimate of this amount for the most recent quarter.

A number of our VBC contracts are subject to complex or novel patient attribution mechanics and benchmark adjustments, some of which are based on information not reported to us until periods after we report our quarterly results. As a result, our estimates of our patients under, and the dollar amount of, our value-based contracts remain subject to estimation uncertainty.

DAVITA INC.
RECONCILIATIONS FOR NON-GAAP MEASURES
(unaudited)

Note on Non-GAAP Financial Measures

As used in this press release, the term "adjusted" refers to non-GAAP measures as follows, each as reconciled to its most comparable GAAP measure as presented in the non-GAAP reconciliations in the notes to this press release: (i) for income measures, the term "adjusted" refers to operating performance measures that exclude certain items such as impairment charges, (gain) loss on ownership changes, restructuring charges, accruals for legal matters and debt prepayment and refinancing charges; and (ii) the term "effective income tax rate on adjusted income attributable to DaVita Inc." represents the Company's effective tax rate excluding applicable non-GAAP items and the tax associated with them as well as noncontrolling owners' income, which primarily relates to non-tax paying entities.

These non-GAAP or "adjusted" measures are presented because management believes these measures are useful adjuncts to GAAP results. However, these non-GAAP measures should not be considered alternatives to the corresponding measures determined under GAAP.

Specifically, management uses adjusted operating income, adjusted net income attributable to DaVita Inc. and adjusted diluted net income per share attributable to DaVita Inc. to compare and evaluate our performance period over period and relative to competitors, to analyze the

underlying trends in our business, to establish operational budgets and forecasts and for incentive compensation purposes. We believe these non-GAAP measures also are useful to investors and analysts in evaluating our performance over time and relative to competitors, as well as in analyzing the underlying trends in our business. Furthermore, we believe these presentations enhance a user's understanding of our normal consolidated results by excluding certain items which we do not believe are indicative of our ordinary results of operations. As a result, adjusting for these amounts allows for comparison to our normalized prior period results.

In addition, the effective income tax rate on income attributable to DaVita Inc. excludes noncontrolling owners' income, which primarily relates to non-tax paying entities.

The effective income tax rate on adjusted income attributable to DaVita Inc. excludes noncontrolling owners' income and certain non-deductible and other charges which we do not believe are indicative of our ordinary results. Accordingly, we believe these adjusted effective income tax rates are useful to management, investors and analysts in evaluating our performance and establishing expectations for income taxes incurred on our ordinary results attributable to DaVita Inc.

Finally, free cash flow represents net cash provided by operating activities less distributions to noncontrolling interests and all capital expenditures (including development capital expenditures, routine maintenance and information technology); plus contributions from noncontrolling interests and proceeds from the sale of self-developed properties. Management uses this measure to assess our ability to fund acquisitions and meet our debt service obligations and we believe this measure is equally useful to investors and analysts as an adjunct to cash flows from operating activities and other measures under GAAP.

It is important to bear in mind that these non-GAAP "adjusted" measures are not measures of financial performance or liquidity under GAAP and should not be considered in isolation from, nor as substitutes for, their most comparable GAAP measures.

The following Notes 3 through 5 provide reconciliations of the non-GAAP financial measures presented in this press release to their most comparable GAAP measures.
