

DaVita Inc. 4th Quarter 2025 Results

DENVER, Feb. 2, 2026 [/PRNewswire/](#) -- DaVita Inc. (NYSE: DVA) announced financial and operating results for the quarter and year ended December 31, 2025.

"Our strong platform delivered once again in 2025, providing high quality, innovative care to our patients and achieving the financial targets we set out at the beginning of the year despite a challenging environment," said Javier Rodriguez, CEO of DaVita. "Given our ongoing investments and process improvements, we are confident in our ability to continue to deliver both clinically and financially in 2026 and beyond."

Financial and operating highlights for the quarter and year ended December 31, 2025:

- Consolidated revenues were \$3.620 billion and \$13.643 billion for the three months and year ended December 31, 2025, respectively.
- Operating income was \$561 million and adjusted operating income was \$586 million for the three months ended December 31, 2025. Operating income was \$2,044 million and adjusted operating income was \$2,094 million for the year ended December 31, 2025.
- Diluted earnings per share from continuing operations was \$2.94 and adjusted diluted earnings per share from continuing operations was \$3.40 for the three months ended December 31, 2025. Diluted earnings per share from continuing operations was \$9.51 and adjusted diluted earnings per share from continuing operations was \$10.78 for the year ended December 31, 2025.
- Operating cash flow was \$541 million and free cash flow was \$309 million for the three months ended December 31, 2025. Operating cash flow was \$1,887 million and free cash flow was \$1,024 million for the year ended December 31, 2025.
- Refinanced existing Term Loan A-1 and revolving line of credit during the three months ended December 31, 2025, as described below. Additionally, refinanced existing Term Loan B-1 and issued 6.75% senior notes due 2033 during the year ended December 31, 2025.
- Repurchased 2.7 million shares of the Company's common stock at an average price paid of \$122.78 per share in the three months ended December 31, 2025. Repurchased 12.7 million shares of the Company's common stock at an average price paid of \$140.09 per share in the year ended December 31, 2025.

U.S. dialysis metrics:

Volume: Total U.S. dialysis treatments for the fourth quarter of 2025 were 7,264,520, or an average of 91,608 treatments per day, representing a per day decrease of (0.1)% compared to the third quarter of 2025. Normalized non-acquired treatment growth in the fourth quarter of 2025 compared to the fourth quarter of 2024 was (0.6)%.

	Three months ended			Year ended		
	December 31, 2025	September 30, 2025	Quarter change	December 31, 2025	December 31, 2024	Year to date change
	(dollars in millions, except per treatment data)					
Revenue per treatment	\$ 422.60	\$ 410.59	\$ 12.01	\$ 409.56	\$ 391.32	\$ 18.24
Patient care costs per treatment	\$ 279.60	\$ 273.54	\$ 6.06	\$ 273.34	\$ 258.12	\$ 15.22
General and administrative	\$ 336	\$ 322	\$ 14	\$ 1,253	\$ 1,174	\$ 79

Primary drivers of the changes in the table above were as follows:

Revenue: The quarter change was primarily driven by increases in average reimbursement rates and other normal fluctuations as well as slight improvement in mix and seasonal impact of flu vaccines. The year to date change was driven by the incorporation of phosphate binders into the ESRD Prospective Payment System bundle and an increase in average reimbursement rates from normal annual increases, including Medicare base rate.

Patient care costs: The quarter change was primarily due to increased health benefit expense as well as increased medical supply costs. The year to date change was primarily driven by increased pharmaceutical costs, primarily driven by the incorporation of phosphate binders, increased compensation expenses, medical supply costs, and health benefit expense.

General and administrative: The quarter change was primarily due to professional fees, IT-related costs, and health benefit costs, partially offset by a decrease in costs related to the previously disclosed cybersecurity incident. The year to date change was primarily driven by increases in IT-related costs and costs related to the cybersecurity incident, as well as increases in compensation expense, partially offset by decreased center closure costs.

Certain items impacting the quarter:

Debt transaction. In November 2025, we entered into the Eighth Amendment to our senior secured credit agreement to refinance our existing Term Loan A-1 and revolving line of credit facilities maturing April 28, 2028 with a new Term Loan A-2 facility in the aggregate principal amount of \$2.0 billion and revolving line of credit facility in the aggregate principal amount of up to \$1.5 billion. We used a portion of the proceeds from this transaction to pay off the remaining principal balance outstanding on our Term Loan A-1 in the amount of \$1.9 billion and related accrued interest and fees. The remaining borrowings added cash to the balance sheet for general corporate purposes.

Mozarc investment. During the fourth quarter of 2025, we incurred impairment and restructuring charges of \$20.5 million as part of equity investment losses related to Mozarc Medical Holding LLC (Mozarc), partially offset by a \$12.6 million gain on remeasurement of contingent consideration. The impairment and restructuring charges, net of the remeasurement gain, are excluded from our adjusted non-GAAP metrics.

Share repurchases. During the three months ended December 31, 2025, we repurchased 2.7 million shares for \$331 million, at an average price paid of \$122.78 per share.

Subsequent to December 31, 2025 through February 2, 2026, the Company has repurchased 1.7 million shares of our common stock for \$200 million at an average price paid of \$120.56 per share.

Center activity: As of December 31, 2025, we provided dialysis services to a total of approximately 295,000 patients at 3,242 outpatient dialysis centers, of which 2,657 centers were located in the United States and 585 centers were located in 14 countries outside of the United States. During the fourth quarter of 2025, we acquired one and closed six dialysis centers in the United States, and acquired three, opened one, and closed five dialysis centers outside of the United States.

Integrated kidney care (IKC): As of December 31, 2025, we had approximately 66,000 patients in risk-based integrated care arrangements representing approximately \$5.6 billion in annualized medical spend. We also had an additional 9,400 patients in other integrated care arrangements; we do not include the medical spend for these patients in this annualized medical spend estimate. For an additional description of these metrics, see footnote 6 in the "Supplemental Financial Data" table below.

Outlook:

The following forward-looking measures and the underlying assumptions involve significant known and unknown risks and uncertainties, including those described below, and actual results may vary materially from these forward-looking measures. We do not provide guidance for operating income or diluted net income per share attributable to DaVita Inc. or operating cash flow on a basis consistent with United States generally accepted accounting principles (GAAP) nor a reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures on a forward-looking basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These current non-GAAP financial measures do not include certain items, including cybersecurity costs and foreign currency fluctuations, which may be significant. The guidance for our effective income tax rate on adjusted income attributable to DaVita Inc. also excludes the amount of third-party owners' income and related taxes attributable to non-tax paying entities.

	Current 2026 guidance	
	Low	High
(dollars in millions, except per share data)		
Adjusted operating income	\$2,085	\$2,235
Adjusted diluted net income from continuing operations per share attributable to DaVita Inc.	\$13.60	\$15.00
Free cash flow	\$1,000	\$1,250

The following table outlines normalized treatment days by quarter for 2026 and each quarter in 2025, for comparison. Normalized treatment days are adjusted for the mix of days of the week for each quarter and serve as a means to more readily compare calendar effects on each quarter's treatment volume.

	Normalized Treatment Days	
	2025	2026
Q1	76.9	76.5
Q2	78.0	78.0
Q3	78.8	79.2

Q4	79.5	78.8
Total	313.2	312.4

Certain columns, rows or percentages may not sum or recalculate due to the presentation of rounded numbers.

We will be holding a conference call to discuss our results for the fourth quarter ended December 31, 2025, on February 2, 2026, at 5:00 p.m. Eastern Time. To join the conference call, please dial (877) 918-6630 from the U.S. or (517) 308-9042 from outside the U.S., and provide the operator the password "Earnings." This call is being webcast and can be accessed at the DaVita Investor Relations website investors.davita.com. A replay of the conference call will also be available at investors.davita.com.

Forward looking statements

DaVita Inc. and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA), including statements in this release, filings with the Securities and Exchange Commission (SEC), reports to stockholders and in meetings with investors and analysts. All statements in this release, during the related presentation or other meetings, other than statements of historical fact, are forward-looking statements and as such are intended to be covered by the safe harbor for "forward-looking statements" provided by the PSLRA. These forward-looking statements could include, among other things, statements about our balance sheet and liquidity, our expenses, revenues, billings and collections, patient census, the impact of the cybersecurity incident experienced by the Company in 2025, the potential impact of the One Big Beautiful Bill Act (OBBBA) and federal government policy changes or shutdowns, including with respect to federal funding and reimbursement rates of Medicare, Medicare Advantage, Medicaid and other government programs, availability or cost of supplies, including without limitation the impact of evolving trade policies and tariffs and any reduction in clinical and other supplies due to any disruptions experienced by third party vendors, including with respect to our ability to provide home dialysis services, treatment volumes, mix expectation, such as the percentage or number of patients under commercial insurance, including potential impacts to such mix as a result of U.S. administration policies, current macroeconomic, marketplace and labor market conditions, and overall impact on our patients and teammates, as well as other statements regarding our outlook, future operations, financial condition and prospects, capital allocation plans, expenses, cost saving initiatives, other strategic initiatives, use of contract labor, government and commercial payment rates, expectations related to value-based care (VBC), integrated kidney care (IKC), Medicare Advantage (MA) plan enrollment and our international operations, expectations regarding increased competition and marketplace changes, including those related to new or potential entrants in the dialysis and pre-dialysis marketplace and the potential impact of innovative technologies, drugs, or other treatments on the dialysis industry, and expectations regarding our share repurchase program. All statements in this release, other than statements of historical fact, are forward-looking statements. Without limiting the foregoing, statements including the words "expect," "intend," "will," "could," "plan," "anticipate," "believe," "forecast," "guidance," "outlook," "goals," and similar expressions are intended to identify forward-looking statements. These forward-looking statements are based on DaVita's current expectations and are based solely on information available as of the date of this release. DaVita undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of changed circumstances, new information, future events or otherwise, except as may be required by law. Actual future events and results could differ materially from any forward-looking statements due to numerous factors that involve substantial known and unknown risks and uncertainties. These risks and uncertainties include, among other things:

- external conditions, including those related to general economic, political and global health conditions, including without limitation, the impact of global events and political or governmental volatility; the impact of the domestic political environment and related developments on the current healthcare marketplace, our patients and on our business, including without limitation, developments related to domestic policy initiatives and guidance or potential government shutdowns; the continuing impact of infectious diseases on the chronic kidney disease population and our patient population; supply chain challenges and disruptions, including without limitation, with respect to certain key services, critical clinical supplies and equipment we obtain from third parties, and including any impacts on our supply chain and cost of supplies as a result of natural disasters or evolving trade policies, including tariffs; the potential impact on our patients and industry of new or potential entrants in the dialysis and pre-dialysis marketplace and innovative technologies, drugs, or other treatments; elevated teammate turnover or labor costs; the impact of continued increased competition from dialysis providers and others; and our ability to respond to challenging U.S. and global economic and marketplace conditions, including, among other things, our ability to successfully identify cost saving opportunities;
- the concentration of profits generated by higher-paying commercial payor plans for which there is continued downward pressure on average realized payment rates; our ability to negotiate and maintain contracts with these payors on competitive terms or at all; a reduction in the number or percentage of our patients under commercial plans, including, without limitation, as a result of healthcare, immigration or other policies implemented by the U.S. administration, continuing legislative efforts to restrict or prohibit the use and/or availability of charitable premium assistance, as a result of payors implementing restrictive plan designs or resulting from negotiations with large commercial payors that we have in the past, and currently are, conducting on a concurrent basis;
- risks arising from laws, regulations or requirements applicable to us or changes thereto, including, without limitation, the OBBBA and those related to trade policy, healthcare, privacy, antitrust matters, and acquisition, merger, joint venture or similar transactions and/or labor matters, and potential impacts of changes in interpretation or enforcement thereof or related litigation impacting, among other things, coverage or reimbursement rates for our services or the number of patients enrolled in or that select higher-paying commercial plans, and the risk that we make incorrect assumptions about how our patients will respond to any such developments;
- our ability to successfully implement strategic and operational initiatives in a complex, evolving and highly regulated environment, including, without limitation, with respect to IKC and VBC initiatives and home based dialysis;
- a reduction in government payment rates under the Medicare End Stage Renal Disease program, state Medicaid or other government-based programs and the impact of the MA benchmark structure and adjustment methodologies;
- our reliance on significant suppliers, service providers and other third party vendors to provide key support to our business operations and enable our provision of services to patients, including, among others, suppliers of certain pharmaceuticals, administrative or other services or critical clinical products; and risks resulting from a closure, reduction or other disruption in the services or products provided to us by such suppliers, service providers and third party vendors;
- our ability to successfully maintain, operate or upgrade our information systems or those of third-party service providers upon which we rely and our ability to successfully adopt or adapt to new technologies, treatments or therapies;
- legal and compliance risks, such as compliance with complex, and at times, evolving government regulations and requirements, and with additional laws that may apply to our operations as we expand geographically or enter into new lines of business;

- noncompliance by us or our business associates with any privacy or security laws or any security breach by us or a third party, such as the cybersecurity incident experienced by the Company in 2025, including, among other things, any such non-compliance or breach involving the misappropriation, loss or other unauthorized use or disclosure of confidential information;
- our ability to attract, retain and motivate teammates, including key leadership personnel, and our ability to manage potential disruptions to our business and operations, including potential work stoppages, operating cost increases or productivity decreases whether due to union organizing activities, political unrest or legislative or other changes, demand for labor, volatility and uncertainty in the labor market, the current challenging and highly competitive labor market conditions, including due to the ongoing nationwide shortage of skilled clinical personnel, or other reasons;
- changes in practice patterns related to pharmaceuticals, medical equipment or supplies, reimbursement and payment policies and processes, or pricing, including with respect to oral phosphate binders, among other things;
- our ability to develop and maintain relationships with physicians and hospitals, changing affiliation models for physicians, and the emergence of new models of care or other initiatives that, among other things, may erode our patient base and impact reimbursement rates;
- our ability to complete and successfully integrate and operate acquisitions, mergers, dispositions, joint ventures or other strategic transactions on terms favorable to us or at all; and our ability to continue to successfully expand our operations and services in markets outside the United States, or to businesses or products outside of dialysis services;
- the variability of our cash flows, including, without limitation, any extended billing or collections cycles including, without limitation, due to defects or operational issues in our billing systems, the impact of the cybersecurity incident experienced by the Company in 2025 or defects or operational issues in the billing systems or services of third parties on which we rely; the risk that we may not be able to generate or access sufficient cash in the future to service our indebtedness or to fund our other liquidity needs;
- the effects on us or others of natural or other disasters, public health crises or severe adverse weather events such as hurricanes, earthquakes, fires or flooding;
- factors that may impact our ability to repurchase stock under our share repurchase program and the timing of any such stock repurchases, as well as any use by us of a considerable amount of available funds to repurchase stock;
- our goals and disclosures related to sustainability matters, including, among other things, evolving regulatory requirements affecting environmental, social and governance standards, measurements and reporting requirements; and
- the other risk factors, trends and uncertainties set forth in our Annual Report on Form 10-K for the year ended December 31, 2024 and Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30 and September 30, 2025, and the risks and uncertainties discussed in any subsequent reports that we file or furnish with the SEC from time to time.

The financial information presented in this release is unaudited and is subject to change as a result of subsequent events or adjustments, if any, arising prior to the filing of the Company's Yearly Report on Form 10-K for the year ended December 31, 2025.

-
- (1) These are non-GAAP financial measures. For a reconciliation of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, and for a definition of adjusted amounts, see attached reconciliation schedules. Adjusted operating income margin is adjusted operating income divided by consolidated revenues.
- (2) General and administrative expenses include certain corporate support, long-term incentive compensation and advocacy costs.
- (3) Normalized treatment days reflect treatment days adjusted to normalize for the mix of days of the week in a given quarter.
- (4) Normalized non-acquired treatment growth reflects year-over-year growth in treatment volume, adjusted to exclude acquisitions and other similar transactions, and further adjusted to normalize for the number and mix of treatment days in a given quarter versus the prior year quarter.
- (5) Integrated care metrics: The aggregate amount of medical spend associated with risk-based integrated care arrangements that we disclose includes both medical costs included in our reported expenses for certain risk-based arrangements (such as our SNPs), as well as the aggregate estimated benchmark amount above or below which we will incur profit or loss from value-based care (VBC) arrangements under which third-party medical costs are not included in our reported results. A number of our VBC contracts are subject to complex or novel patient attribution mechanics and benchmark adjustments, some of which are based on information not reported to us until periods after we report our quarterly results. As a result, our estimates of our patients under, and the dollar amount of, our value-based contracts remain subject to estimation uncertainty.
- (6) The debt amounts as of December 31, 2025 and September 30, 2025 presented exclude approximately \$71.4 and \$62.8, respectively, of debt discount, premium and other deferred financing costs related to our senior secured credit facilities and senior notes in effect or outstanding at that time.
- (7) This is a non-GAAP measure. See "Calculation of Leverage Ratio" in non-GAAP reconciliations.

DAVITA INC.
RECONCILIATIONS FOR NON-GAAP MEASURES
(unaudited)

(dollars in millions)
Calculation of the Leverage Ratio

Under our amended senior secured credit facilities (the Amended Credit Agreement) dated November 24, 2025, the leverage ratio is defined as (a) all funded debt, minus unrestricted cash and cash equivalents (including short-term investments) divided by (b) "Consolidated EBITDA." Under our prior senior secured credit facilities, cash and cash equivalents used to calculate the leverage ratio were limited to \$750. The leverage ratio determines the interest rate margin payable by the Company for its Term Loan A-2 and revolving line of credit under the Amended Credit Agreement by establishing the margin over the base interest rate (SOFR plus credit spread adjustment) that is applicable. The calculation below is based on the last 12 months of "Consolidated EBITDA" and "Consolidated net debt" at the end of each reported period, each as defined in the credit agreement that was in effect at the end of each such period (the Applicable Credit Agreement). The calculation of "Consolidated EBITDA" below sets forth, among other things, certain pro forma adjustments described in the Applicable Credit Agreement, including, pro forma adjustments for acquisitions or divestitures that occurred during the period and certain projected net cost savings, expense reductions and cost synergies. These pro forma adjustments are determined according to specified criteria set forth in the Applicable Credit Agreement, and as a result, the total adjustments calculated may not be comparable to the Company's estimates for other purposes, including as operating performance measures. The Company's management believes the presentation of "Consolidated EBITDA" is useful to investors to enhance their understanding of the Company's leverage ratio under the Applicable Credit Agreement and should not be evaluated for any other purpose. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for the ratio of total debt to operating income, determined in accordance with GAAP. The Company's calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures of other companies.

Maximum leverage ratio permitted under the Credit Agreement	<u>5.00x</u>	<u>5.00x</u>

Certain columns or rows may not sum or recalculate due to the presentation of rounded numbers.

(1) The debt amounts as of December 31, 2025 and September 30, 2025 presented exclude approximately \$71.4 and \$62.8, respectively, of debt discount, premium and other deferred financing costs related to our senior secured credit facilities and senior notes in effect or outstanding at that time.

(2) This excludes amounts not readily convertible to cash related to the Company's non-qualified deferred compensation plans for all periods presented. The senior secured credit facility prior to November 24, 2025 limited the amount deducted to the lesser of all unrestricted cash and cash equivalents, including short-term investments of the Company or \$750.

DAVITA INC.
RECONCILIATIONS FOR NON-GAAP MEASURES
(unaudited)
Note on Non-GAAP Financial Measures

As used in this press release, the term "adjusted" refers to non-GAAP measures as follows, each as reconciled to its most comparable GAAP measure as presented in the non-GAAP reconciliations in the notes to this press release: (i) for income and expense measures, the term "adjusted" refers to operating performance measures that exclude certain items such as, but not limited to, cybersecurity costs, impairment charges, (gain) loss on ownership changes, restructuring charges, accruals for legal matters, and debt extinguishment and modification costs; and (ii) the term "effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc." represents the Company's effective tax rate excluding applicable non-GAAP items and the tax associated with them as well as noncontrolling owners' income, which primarily relates to non-tax paying entities.

These non-GAAP or "adjusted" measures are presented because management believes these measures are useful adjuncts to GAAP results. However, these non-GAAP measures should not be considered alternatives to the corresponding measures determined under GAAP.

Specifically, management uses adjusted operating income, adjusted net income from continuing operations attributable to DaVita Inc. and adjusted diluted net income per share from continuing operations attributable to DaVita Inc. to compare and evaluate our performance period over period and relative to competitors, to analyze the underlying trends in our business, to establish operational budgets and forecasts and for incentive compensation purposes. We believe these non-GAAP measures also are useful to investors and analysts in evaluating our performance over time and relative to competitors, as well as in analyzing the underlying trends in our business. Furthermore, we believe these presentations enhance a user's understanding of our normal consolidated results by excluding certain items which we do not believe are indicative of our ordinary results of operations. As a result, adjusting for these amounts allows for comparison to our normalized prior period results.

The effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income and certain non-deductible and other charges which we do not believe are indicative of our ordinary results. Accordingly, we believe these adjusted effective income tax rates are useful to management, investors and analysts in evaluating our performance and establishing expectations for income taxes incurred on our ordinary results attributable to DaVita Inc.

Finally, free cash flow represents net cash provided by operating activities less distributions to noncontrolling interests, development capital expenditures, and maintenance capital expenditures; plus contributions from noncontrolling interests and proceeds from the sale of self-developed properties. Management uses this measure to assess our ability to fund acquisitions and meet our debt service obligations and we believe this measure is equally useful to investors and analysts as an

adjunct to cash flows from operating activities and other measures under GAAP.

It is important to bear in mind that these non-GAAP "adjusted" measures are not measures of financial performance or liquidity under GAAP and should not be considered in isolation from, nor as substitutes for, their most comparable GAAP measures.

The following reconciliations of the non-GAAP financial measures presented in this press release to their most comparable GAAP measures.

-
- (1) Represents charges recognized to work to remediate a cybersecurity incident and restore systems following the occurrence of the incident in the second quarter of 2025. We have excluded these charges from our non-GAAP metrics as we do not believe they are indicative of our ordinary results of operations.
- (2) Represents an accrual for potential third-party judgment costs for certain legal matters. We have excluded this charge from our non-GAAP metrics because, among other things, we do not believe it is indicative of our ordinary results of operations because the charge is significant and may obscure analysis of underlying trends and financial performance of our current business.
- (3) Represents non-cash gains recognized on the acquisitions of controlling financial interests in previously nonconsolidated partnerships during 2024. These gains were to mark our prior investments in these businesses to fair value before consolidation and to recognize related foreign currency gains from translation adjustments previously deferred in accumulated other comprehensive loss. Gains on changes in business ownership interests do not represent a normal and recurring requirement of operating our business or generating revenues and may obscure analysis of underlying trends and financial performance.
- (4) Represents non-cash impairment and restructuring charges, net of a non-cash gain on remeasurement of contingent consideration, included in other losses related to our equity investment in Mozarc Medical Holding LLC (Mozarc). This net loss does not represent a normal and recurring cost of operating our business or generating returns from investments and may obscure analysis of underlying trends and financial performance.
- (5) Represents the non-cash write-off of deferred financing costs and cash charges for creditor fees and third-party costs associated with the Company's senior secured credit agreement. Costs associated with refinancing the Company's debt are not indicative of normal debt expense and may obscure analysis of underlying trends and financial performance.
- (6) Represents the write-down of a tax receivable related to a 2014 tax refund claim. The claim related to estimated tax expense associated with a legal matter previously presented as a non-GAAP adjustment. We have excluded this charge from our non-GAAP metrics because, among other things, we do not believe it is indicative of our ordinary results of operations because the charge is significant and may obscure analysis of underlying trends and financial performance of our current business.
- (7) Maintenance capital expenditures represent capital expenditures to maintain the productive capacity of the business and include those made for investments in information technology, dialysis center renovations, capital asset replacements, and any other capital expenditures that are not development or acquisition expenditures.
- (8) Development capital expenditures principally represent capital expenditures (other than acquisition expenditures) made to expand the productive capacity of the business and include those for new U.S. and international dialysis center developments, dialysis center expansions and relocations, and new or expanded contracted hospital operations.
