

DaVita Inc. Reports 3rd Quarter 2002 Results

PRNewswire-FirstCall
TORRANCE, Calif.

DaVita Inc. , today announced results for the quarter ended September 30, 2002. EBITDA, excluding prior period laboratory receipts and accounts receivable recoveries, was \$99.8 million for the quarter. EBITDA for the quarter included current period Medicare laboratory revenue of \$5.4 million.

(Photo: <http://www.newscom.com/cgi-bin/prnh/20020729/DAVITALOGO>)

Net earnings for the three and nine months ended September 30, 2002 were \$54 million and \$99 million, or \$0.72 and \$1.20 per share, respectively. Net earnings for the quarter, excluding the prior period Medicare laboratory receipts and accounts receivable recoveries totaling \$28 million, were \$37 million or \$0.51 per share. Net earnings for the nine months, excluding prior period lab receipts and accounts receivable recoveries totaling \$32 million, valuation gains of \$2.4 million and a \$29 million after-tax extraordinary loss related to the early extinguishment of debt, were \$107 million or \$1.29 per share.

Financial and operating highlights include:

- For the rolling 12 months ended September 30, 2002 operating cash flow was \$280 million and free cash flow was \$230 million. Operating cash flow for the quarter was \$119 million and free cash flow was \$110 million. These cash flow numbers exclude prior period lab receipts and accounts receivable recoveries.
- Total treatments for the third quarter were 1,516,840. Non-acquired same center treatment growth was 3.8%.
- Third quarter dialysis revenue per treatment (excluding lab, management fees and other revenue) was essentially flat from the second quarter at \$291 and up 3.8% from the third quarter of 2001.
- The Company began recognizing current-period Medicare lab revenue in the third quarter of 2002, which amounted to \$5.4 million. During the third quarter, the Medicare carrier began paying claims from the Company's lab for the first time in more than four years.
- EBITDA margin, excluding all prior-period recoveries, was 22.0%. EBITDA margin improved 100 basis points from the second quarter primarily as a result of the recognition of current period Medicare laboratory revenue.
- DSO improved 3 days from the second quarter to 70 days.
- Third quarter prior-period recoveries included \$27 million associated with Medicare lab claims and \$0.5 million in cash recoveries associated with accounts receivable reserved in 1999.
- Based on recent communications with the Medicare carrier, the Company expects to receive, over the next few months, additional payments of \$20 million or more related to prior years' Medicare lab claims. The revenue associated with these recoveries will be recognized as the payments are received.
- As of September 30, 2002, we operated 504 outpatient centers serving approximately 44,000 patients. During the third quarter we closed 1 under-performing center, acquired 6 centers and opened 7 de novo centers. Included in this patient and center count are approximately 3,300 patients in 29 centers under management.

Since the Company is now recognizing Medicare laboratory revenue, we are raising our 2002 EBITDA guidance to \$380 million to \$386 million. Correspondingly, our 2003 EBITDA guidance has been increased to \$380 million to \$400 million.

DaVita will be holding an investor meeting on November 6, 2002, at the New York Palace Hotel. The event will begin at 9:30 AM Eastern Standard Time. Kent Thiry, Chairman and CEO, and Rich Whitney, CFO, will discuss the Company's financial results for the quarter ended September 30, 2002 followed by a presentation on the state of the Company.

Please join us in person at the New York Palace Hotel located at 455 Madison Avenue @50th Street. If you are unable to attend you can participate in both presentations via conference call at 800-399-4406. A replay of both presentations will be available on DaVita's official web page, www.davita.com, for the following 30 days.

This release contains forward-looking statements. Factors which could impact future results include the uncertainties associated

with governmental regulation, general economic and other market conditions, and the risk factors set forth in the Company's SEC filings, including its Form 10-Q for the quarter ended June 30, 2002. The forward-looking statements should be considered in light of these risks and uncertainties.

These risks include those relating to:

- possible reductions in private and government reimbursement rates,
- the concentration of profits generated from PPO and private indemnity patients and from ancillary services including the administration of pharmaceuticals,
- changes in pharmaceutical practice patterns or reimbursement policies,
- the ongoing review of the Company's Florida laboratory subsidiary by its Medicare carrier and the Department of Justice,
- the ongoing review by the US Attorney's Office and HHS Office of Inspector General in Philadelphia and
- the Company's ability to maintain contracts with physician medical directors.
