PRNewswire-FirstCall
TORRANCE, Calif.

DaVita Inc. announced today its plans to repurchase up to 25,000,000 shares of its common stock and any or all of its outstanding 9 1/4% Senior Subordinated Notes due 2011. DaVita expects to enter into a new senior credit facility to finance these repurchases.

The stock repurchase will be made through a tender offer that will commence on or about Wednesday, March 20, 2002. The tender offer will not be contingent upon any minimum number of shares being tendered, but will be contingent upon the funding of the new senior credit facility and the consummation of the tender offer for the notes and receipt of the requisite consents.

The note repurchase will be made through a tender offer that also will commence on or about Wednesday, March 20, 2002. This tender offer will consist of the offer to purchase, subject to the funding of the new senior credit facility and other conditions to be set forth in the tender offer documents, of the outstanding notes at a price to be determined by reference to a fixed spread over the yield to maturity of certain U.S. Treasury Notes, plus accrued and unpaid interest up to but not including the date of payment for the notes. In connection with the note tender offer, DaVita will seek consents from the holders of the notes to amend the indenture governing the notes by eliminating substantially all restrictive provisions. Only holders of the notes who consent to the proposed amendments by validly tendering their notes as of the consent date will receive the consent payment, unless DaVita extends that date.
