

# DaVita Inc. Reports 3rd Quarter 2005 Results

PRNewswire-FirstCall  
EL SEGUNDO, Calif.

DaVita Inc. , today announced results for the quarter ended September 30, 2005. Net income for the three months and nine months ended September 30, 2005 was \$55.2 million and \$164.5 million, or \$0.53 and \$1.58 per share, respectively.

(Logo: <http://www.newscom.com/cgi-bin/prnh/20020729/DAVITALOGO> )

Net income for the quarter ended September 30, 2005 included pre-tax Medicare lab recoveries related to prior years' services of \$1.1 million and a net swap valuation loss of \$1.7 million.

Financial and operating highlights include:

- Cash Flow: Operating cash flow for the quarter ended September 30, 2005 was \$85 million and free cash flow was \$75 million. For the rolling 12-month period ended September 30, 2005 operating cash flow was \$334 million and free cash flow was \$287 million, excluding the tax benefit from stock option exercises and the after-tax benefit of Medicare lab recoveries related to prior years' services. Including those items, the rolling 12-month period operating cash flow was \$390 million and free cash flow was \$343 million.
- Operating Income: Operating income for the three months and nine months ended September 30, 2005, was \$111.2 million and \$324.9 million, respectively, excluding Medicare lab prior years' recoveries of \$1.1 million and \$3.8 million, respectively.
- Operating Income Margins: Operating income margins declined from 17.6% for the third quarter of 2004 to 16.5% for 2005. The decrease was primarily attributable to increases in labor and benefit costs, and higher G&A costs, driven primarily by legal and compliance professional fees, as well as integration costs associated with the Gambro Healthcare acquisition.
- Volume: Total treatments for the third quarter were 2,037,584 or 25,792 treatments per day, an increase of 12.9% per day as compared to the third quarter of last year. Non-acquired treatment growth was 5.2% for the third quarter.
- Effective Tax Rate: The effective income tax rate for third quarter 2005 was 37.5%. We expect the annual effective tax rate to be 38.0% for 2005, and within a range of 39% - 40% for 2006, exclusive of valuation allowance adjustments.
- Center Activity: As of September 30, 2005, we operated or provided administrative services at 724 outpatient centers serving approximately 58,100 patients. During the third quarter we acquired 11 centers, opened 8 de novo centers and divested one wholly owned center.

Summary of Recent Transactions:

On October 5, 2005, we completed our acquisition of Gambro Healthcare, one of the largest dialysis service providers in the U.S. for an aggregate purchase price of \$3.055 billion. In connection with the acquisition we:

- entered into a new credit agreement for \$3.05 billion and used borrowings of \$2.85 billion under the facilities along with available cash of \$252 million to purchase Gambro Healthcare and pay related fees of \$47 million;
- entered into an Alliance and Product Supply Agreement with Gambro AB and Gambro Renal Products, Inc. for the next ten years, during which we are committed to purchase a significant majority of our hemodialysis products, supplies and equipment; and
- on October 6, 2005 we completed the sale of 70 freestanding renal dialysis centers to Renal Advantage. The sale of an additional three centers to Renal Advantage will be made upon receipt of Illinois state regulatory approval and is expected to close within the next 60 days. Also one other center was sold to a separate physician group and two management services agreements were terminated. We are receiving approximately \$328 million for all of the divested centers, and resulting tax payments are estimated at approximately \$95 million.

As of September 30, 2005, proforma for the Gambro Healthcare acquisition and divestitures, we would have operated or provided administrative services to over 1,200 outpatient centers in 41 states serving approximately 94,000 patients.

## Outlook

Our 2006 operating income is currently projected to be in the \$600-\$670 million range, before the impact of FASB No. 123R related to stock option expensing. Major variables include integration of the Gambro Healthcare operations, government reimbursement rates, intensities of physician prescribed pharmaceuticals, payor contracting, and growth assumptions.

Kent Thiry, CEO, stated, "This is a difficult time to provide guidance because there is an unusual amount of change going on, internally and externally. The integration is off to a strong start and we remain confident the combination of these two teams was the correct long-term decision for shareholders. In addition we remain confident that the combination will lead to even better patient care."

DaVita will be holding a conference call to discuss its third quarter results for 2005 on October 31, 2005, at 11:30 AM Eastern Time. The dial in number is 800-399-4406. A replay of the conference call will be available on DaVita's official web page, <http://www.davita.com/>, for the following 30 days.

This release contains forward-looking statements. Factors which could impact future results include the uncertainties associated with governmental regulations, general economic and other market conditions, acquisitions and the risk factors set forth in the Company's SEC filings, including its Form 10-Q for the quarter ended June 30, 2005. The forward-looking statements should be considered in light of these risks and uncertainties. These risks and uncertainties include those relating to:

- the concentration of profits generated from preferred provider organizations (PPO) and private indemnity patients,
- possible reductions in private and government reimbursement rates,
- changes in pharmaceutical practice patterns or reimbursement policies,
- our ability to maintain contracts with physician medical directors,
- legal compliance risks, including our continued compliance with complex government regulations and the ongoing review by the U.S. Attorney's Office for the Eastern District of Pennsylvania and the OIG, the subpoena from the U.S. Attorney's Office for the Eastern District of New York, the subpoena from the U.S. Attorney's Office, Eastern District of Missouri and our ability to cause Gambro Healthcare to comply with its corporate integrity agreement, and
- our ability to complete and integrate acquisitions, including Gambro Healthcare.

We undertake no obligation to update or revise any forward-looking statements, whether as a result of changes in underlying factors, new information, future events or otherwise.

This release contains non-GAAP financial measures. For reconciliations of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the attached reconciliation schedules.

(unaudited)  
(dollars in thousands)

Note 1: Calculation of the Leverage Ratio

The leverage ratio under the Company's senior secured credit agreement as in effect for the quarter ended September 30, 2005 (the Prior Credit Agreement), is defined as all funded debt plus the face amount of all letters of credit issued, minus cash and cash equivalents, divided by "EBITDA". The leverage ratio determines the interest rate margin payable by the Company under the Prior Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The following Leverage Ratio was calculated using "Consolidated EBITDA" as defined in the indentures governing our recently issued senior notes. Such calculation is on a basis that is materially consistent with the definition of "EBITDA" contained in the Prior Credit Agreement, except that EBITDA under our Prior Credit Agreement is based on the last twelve-months and is not based on annualized EBITDA, and pro forma incremental "EBITDA" relating to acquisitions is included in the calculation of "EBITDA" under the Prior Credit Agreement and is not included in the following calculations.

	Three months ended		
	September 30, 2005	June 30, 2005	September 30, 2004
Net income	\$55,217	\$52,943	\$60,386
Debt expense	24,297	24,897	13,741
Income taxes	33,180	32,420	38,535
Depreciation and amortization	26,372	25,860	22,257
Minority interests and equity income, net	7,262	6,125	3,593
Swap valuation loss	1,718	2,131	
"Consolidated EBITDA" as defined in the indentures	\$148,046	\$144,376	\$138,512

Annualized "Consolidated  
EBITDA" as defined in the

indentures	\$592,184	\$577,504	\$554,048
	September 30, 2005	June 30, 2005	September 30, 2004
Total debt	\$1,365,014	\$1,365,867	\$1,387,964
Letters of credit issued	23,959	22,959	22,984
	1,388,973	1,388,826	1,410,948
Less: cash and cash equivalents	(337,196)	(312,761)	(226,942)
Consolidated net debt	\$1,051,777	\$1,076,065	\$1,184,006
Annualized "Consolidated EBITDA" as defined in the indentures	\$592,184	\$577,504	\$554,048
Leverage Ratio	1.78x	1.86x	2.14x

As a result of the Gambro Healthcare acquisition and our related borrowings under our new senior secured credit agreement, we anticipate that our post-acquisition leverage ratio will initially be in the range of 4.5x to 5.0x, which is in compliance with the leverage ratio covenants contained within the new credit agreement. The leverage ratio calculation in our new credit agreement is materially consistent with our Prior Credit Agreement, existing at September 30, 2005.

RECONCILIATIONS FOR NON-GAAP MEASURES

(unaudited)  
(dollars in thousands)

4. Free cash flow and free cash flow, excluding Medicare lab recoveries related to prior years' services, and tax benefit from stock option exercises:

Free cash flow represents net cash provided by operating activities less non-development capital expenditures. We believe free cash flow is a useful adjunct to cash flow from operating activities and other measurements under generally accepted accounting principles in the United States since it is a meaningful measure of our ability to fund acquisition and development activities and meet our debt service requirements. Free cash flow is not a measure of financial performance under generally accepted accounting principles in the United States and should not be considered as an alternative to cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity.
