

DaVita Kidney Care Launches the First Ever Medicare Disease-Specific ACO In South Florida

FT. LAUDERDALE, Fla., Oct. 7, 2015 /PRNewswire/ -- In a step toward providing integrated care for all Medicare patients with kidney failure, [DaVita HealthCare Partners Inc.](#) (NYSE: DVA) , along with partner provider organizations, announces the launch of an End Stage Renal Disease (ESRD) Seamless Care Organization (ESCO) in Broward and Palm Beach counties.

DaVita's ESCO partners include: Coastal Nephrology & Hypertension Center led by Dr. Abbas Rabiei, Fort Lauderdale Nephrology and Hypertension led by Drs. Jorge Barrero Sr. and Jr., Mark Kaylin MD, Nephrology Associates of South Broward led by Dr. Alexander Markovich and Dr. James Reich, Renal Electrolyte & Hypertension Consultants led by Dr. Alberto Casaretto, Richard S. Sandler MD and Steven Zeig MD.

"We are excited to bring the gift of integrated care to our patients," said Bryan Gregory, division vice president for DaVita. "Our joint venture with pioneering nephrologists will facilitate seamless care delivery resulting in better patient outcomes."

The ESCO is a kidney disease-specific accountable care organization (ACO) developed by the Centers for Medicare and Medicaid Services (CMS) that will allow kidney care providers to take accountability for the clinical and financial outcomes of ESRD patients.

Dialysis clinics have frequent contact with ESRD patients. They receive dialysis therapy three times a week for an average of four hours per treatment. Patients who use home-based therapies (e.g., peritoneal dialysis, home hemodialysis) visit a dialysis clinic and engage with its staff multiple times per month. The dialysis center is their natural medical home.

"We're pleased that CMS is recognizing that kidney care is unique and that dialysis centers are a medical home for chronically ill patients," said Dr. Stephen McMurray, vice president of clinical integrated care management services for DaVita. "We hope that in the future, integrated kidney care will be available to all patients."

The ESCO will leverage its access to the patient, its relationship with nephrologists and substantial clinical data to address the totality of each patient's healthcare needs inside and outside of the dialysis clinic.

DaVita has proven experience in managing the full risk and care for broad populations across multiple geographies including specialized programs designed for ESRD patients and patients with other chronic needs. Additionally, DaVita is recognized as the clinical leader in two government quality programs, the CMS Dialysis Facility Compare Five-Star Rating System and the CMS ESRD Quality Incentive Program.
