

DaVita Clinical Research Celebrates International Clinical Trials Day

This year marks 270 years since the first clinical trial ever recorded

MINNEAPOLIS, May 19, 2017 /PRNewswire/ -- [DaVita Clinical Research](#) (DCR), a specialty contract research organization with services spanning the full spectrum of drug and device development, is celebrating International Clinical Trials Day by increasing awareness of the importance of clinical research and recognizing the contributions that trial participants and the health care community have made in advancing health care through research.

"International Clinical Trials Day presents an opportunity to acknowledge the tremendous effect that more than 270 years of clinical trials have had on the advancement of quality in health care," said Francesca Tentori, medical director of outcomes research and member of the Office of the Chief Medical Officer. "DaVita Clinical Research provides the data and support that physicians need to continue to drive patient-centered care."

DaVita Clinical Research is working to spread awareness on the value of clinical research by sharing educational infographics and videos, and by visiting clinics across the United States. Locations include Las Vegas and multiple cities in California. Visit [DaVitaClinicalResearch.com/ResearchMatters/](#) for more information.

With an extensive international network of more than 200 physician researchers and more than 250 research sites, DaVita Clinical Research has published more than 600 scientific abstracts and 295 scientific manuscripts since 2006. It has also supported DaVita Kidney Care with continuing to surpass national averages in clinical outcomes.
