

DISH Network Offers Traders TV Network

EchoStar Communications Corporation (NASDAQ: DISH) announced that its DISH Network Business Solutions division now offers Traders Television Network (TTV), the first satellite television network dedicated to online investors and traders.

Traders Television Network, which was launched on June 1, provides DISH Network customers with 11 hours of live programming every trading day that tracks market trends in the currency and equities markets using specialized trend analysis software. The programming focuses on the individual investor who uses Wizetrade, Options Made Easy and 4X Made Easy software programs.

"DISH Network now provides an additional source of information for the serious trader and investor, appealing to those who need the most complete information in a timely manner," said Mark Jackson, President of EchoStar Technologies Corporation.

Traders Television is located on DISH Network Ch. 9632 and is available for \$495 per month or for \$99 a month when subscribers purchase qualifying software products from GlobalTec Solutions. GlobalTec Solutions' trend analysis software products give customers access to real-time market information and easy-to-read charts. The software programs are available for purchase directly from GlobalTec Solutions at www.globaltecsolutions.com. Subscribers to TTV may need a second dish antenna.

“DISH Network now provides an additional source of information for the serious trader and investor, appealing to those who need the most complete information in a timely manner”

About EchoStar Communications Corporation
