* During the third quarter of 2022, T-Mobile transferred approximately 139,000 wireless subscribers to DISH representing all Boost-branded customers of former Sprint affiliates Shentel and Swiftel, as well as Boost-branded customers who were previously part of the California Public Utilities Commission CARE program. The 139,000 subscribers are included in DISH's ending Wireless subscriber count and excluded from DISH's gross new Wireless subscriber activations. In addition, during the second quarter of 2022, DISH removed approximately 126,000 subscribers from its ending Wireless subscriber count representing wireless subscribers who did not migrate off T-Mobile's CDMA Network prior to the shutdown. The effect of the removal of the 126,000 subscribers was excluded from the calculation of DISH's net Wireless subscriber additions/losses and Wireless churn rate. During the second quarter of 2021, DISH acquired over 200,000 subscribers as a result of the Republic Wireless Acquisition, which are included in DISH's ending Wireless subscriber count and excluded from DISH's gross new Wireless subscriber activations for that period.
