GAIN Capital expects that the net proceeds from this offering will be approximately \$67.5 million, after deducting discounts to the initial purchasers and estimated offering expenses payable by GAIN Capital. GAIN Capital intends to use the net proceeds of the offering to repay \$33.2 million principal amount of outstanding indebtedness, which will be repaid at a \$2.0 million discount, to repurchase 612,430 shares of common stock at an aggregate purchase price of \$5.4 million pursuant to its previously announced share repurchase program, and for general corporate purposes, which may include strategic acquisitions. Of the 612,430 shares of common stock so repurchased, 50,000 shares were repurchased in open market transactions executed in accordance with Rule 10b-18 under the Securities Exchange Act of 1934, and 562,430 shares were repurchased after regular trading hours from purchasers of the notes in privately negotiated transactions.

Jefferies LLC and Keefe, Bruyette & Woods, a Stifel Company, acted as joint book-running managers of the offering.

The notes will be unsecured, senior obligations of GAIN Capital, and will bear interest at a fixed rate of 4.125% per year, payable semiannually in arrears on June 1 and December 1 of each year, beginning on June 1, 2014. The notes will be convertible at any time prior to the close of business on the business day immediately preceding June 1, 2018 only upon the occurrence of specified events; thereafter, until the close of business on the business day immediately preceding the maturity date of December 1, 2018, the notes will be convertible at any time. Conversions of the notes will be settled by the delivery and/or payment of GAIN Capital common stock, cash, or a combination thereof, at GAIN Capital's election (subject to certain limitations). The conversion rate will initially be 83.3333 shares of GAIN Capital's common stock per \$1,000 principal amount of the notes (equivalent to an initial conversion price of approximately \$12.00 per share of common stock). The conversion rate and the corresponding conversion price will be subject to adjustment in some events but will not be adjusted for any accrued and unpaid interest, except in limited circumstances.

If GAIN Capital undergoes a fundamental change (as defined in the indenture governing the notes), holders may require GAIN Capital to repurchase for cash all or part of their notes at a purchase price equal to 100% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest to, but excluding, the fundamental change repurchase date. In addition, if a make-whole fundamental change (as defined in the indenture governing the notes) occurs, GAIN Capital may be required in certain circumstances to increase the conversion rate for any notes converted in connection with such make-whole fundamental change by a specified number of shares of its common stock.
