

# Legrand Announces Nuvo Whole Home Audio Keypads to Complement Arteor and Livinglight Collections

## Attractive New Models Offer Seamless In-wall Control of Nuvo Player Portfolio System

HEBRON, Ky., November 22, 2016 – Legrand, the global specialist in electrical and digital building infrastructures, announced the availability of the Nuvo P20 Arteor™ (NV-P20-ARxx) and Livinglight (NV-P20-LLxx) in-wall keypads for seamless in-wall control of the Nuvo Player Portfolio whole home audio system. These models feature simple installation via Power over Ethernet (PoE) connectivity and practical access to the system's app-based remote controls.

“The Nuvo P20 Arteor and Livinglight keypads combine the unique elegance and versatility of Legrand’s popular design collections with the innovative functionality of the Nuvo whole home audio system,” said Desirée Webster, senior marketing communications manager, Legrand. “The P20 offers two great looks and the convenience of immediate control from a fixed location, which is very handy when you want to adjust the system quickly and your mobile device isn’t nearby.”

The Nuvo P20 keypads control a variety of system functions, including volume, mute, play, pause and next/previous track navigation. Additionally, users can access five system preset favorites to queue the soundtrack for their morning routines, after work relaxation or time with family and friends.

The Nuvo Player Portfolio app simplifies setup for the P20 keypads and does not require a computer. They connect to the home router or gateway and work in harmony with the Nuvo Player app to keep both control methods in perfect sync. Powered via a single RJ45 PoE connection with a Power over Ethernet Injector, the installer will not need a separate wire run to install these keypads.

Designed to augment the profiles of Arteor and Livinglight wall plates, which are available in select regions throughout world\*, the Nuvo Arteor and Livinglight keypads also have sleek, capacitive touch backlit displays. The Arteor keypad is available in both white or magnesium finishes, while the Livinglight is offered in white, anthracite and light tech color options.

The Nuvo Arteor™ (NV-P20-ARxx) and Livinglight (NV-P20-LLXX) keypads are currently available.
