Company Reports Book Value of \$6.08 per Share

BOCA RATON, Fla., March 20, 2017 PRNewswire/ -- Emergent Capital, Inc. (OTCQB: EMGC) ("Emergent" or the "Company"), today announced its financial results for the three months and year ended December 31, 2016.

Three Months Ended December 31, 2016

Total income from continuing operations was \$3.7 million for the three month period endedDecember 31, 2016 compared to \$3.1 million for the same period in 2015. The increase was primarily a result of a change in the fair value of life settlements which was positively impacted by discount rate adjustments. This was offset by a decrease in the gain on maturities of \$3.1 million on two policies during the three month period ended December 31, 2016 compared to a \$7.7 million gain on maturity of two policies for the same period in 2015.

The following table provides a summary of the components of income from the Company's life settlements.

Total expenses from continuing operations were \$27.3 million for the three month period endedDecember 31, 2016 compared to \$18.5 million for the same period in 2015. The increase was primarily attributable to interest expense o\$8.1 million during the three month period compared to \$5.8 million during the same period in 2015, and a loss o\$14.2 million for the change in fair value of revolving credit facilities compared to a gain of \$1.3 million during the same period in 2015. Interest expense for the three month period ended December 31, 2016 includes \$1.2 million of interest on the 15% Senior Secured Notes and\$388,000 in debt issuance costs associated with an amendment to the White Eagle Revolving Credit Facility during the quarter ended December 31, 2016.

Total expenses were also impacted by a reduction in legal expenses of \$9.3 million which included a \$6.5 million payment relating to the Company's indemnification obligations for the conclusion of the United States Attorney's Office (USAO) Investigation on December 31, 2015.

During the quarter ended December 31, 2016, the Company amended the White Eagle Revolving Credit Facility and pledged 190 life settlement policies purchased from wholly owned subsidiaries of the Company as additional collateral under the facility for an additional policy advance of approximately \$71.1 million. Proceeds were used, in part, to extinguish the debt under the Red Falcon Revolving Credit Facility. A loss on extinguishment of debt of \$554,000 was recorded during the three month period endedDecember 31, 2016. As amended, the White Eagle Revolving Credit Facility term was extended by approximately 4 years from April 30, 2028 to December 31, 2031. This extension has impacted the overall cash flow that drives the fair value calculation of the facility.

The Company reported a net loss from continuing operations of \$23.7 million, or \$(0.84) per diluted share for the three month period ended December 31, 2016, compared to a net loss of \$13.7 million, or \$(0.49) per diluted share for the same period in 2015. The net loss for the quarter ended December 31, 2015 includes an income tax benefit of \$1.7 million. There was no income tax benefit during the quarter ended December 31, 2016.

Year Ended December 31, 2016

Total income from continuing operations for the year ended December 31, 2016 was \$1.1 million compared to \$46.9 million during the same period in 2015. The decrease is primarily due to 17 maturities during the year ended December 31, 2015 which resulted in a net gain of \$47.9 million compared to 12 policy maturities and a net gain of approximately\$17.9 million for the year ended December 31, 2016. Income from continuing operations was further impacted by the adoption of the 2015 VBT, which reduced the fair value of the Company's life settlements by \$17.6 million.

The following table provides a summary of the components of income from the Company's life settlements.
