

ZeeVee's Newest AV over IP Encoder Wins "Best of Show" Award from AVTechnology Magazine at ISE 2024

LITTLETON, Mass. and AUGSBERG, Germany, February 13, 2024 – ZeeVee's newest AV over IP (AVoIP) encoder, the pro AV industry's first with a built-in comprehensive management and security interface, has taken top honors at ISE 2024 in Barcelona.

The new model for 1Gb networks, ZyPerUHD60-2EMP, won in this year's *AVTechnology* "Best of Show" awards.

The awards recognize the very best products and solutions on display at ISE 2024, with hundreds of products and solutions considered. All entries were reviewed by a panel of industry experts, speakers and editors. Factors considered include how diverse and comprehensive the new encoder's features are; how easy it is to use and how it integrates with other products; its value for money within the market; and how innovative and unique it is within the market.

By integrating the company's popular and recently updated ZyPer Management Platform (ZMP 3.x), the new encoder with the embedded ZMP software is designed to operate an AVoIP system with enhanced network, account and GUI application safeguards – all without the need for additional components. This combo unit enables the easy building of video walls and includes an autodiscovery capability that makes all ZyPer appliances instantly viewable. Like all of the ZyPerUHD60 models, the new system delivers pixel-for-pixel reproduction of compressed 1080p HD and full 4K@60 4:4:4 UHD resolution content with ultra-low latency over 1Gb

networks.

"This recognition from *AVTechnology* magazine and industry judges underscore ZeeVee's continuing leadership and innovation in the AV over IP market," said Bob Michaels, CEO, ZeeVee. "Our new encoder simplifies and reduces the cost of AV system deployments by integrating advanced management and security capabilities into one component and, critically, is in stock."

You can read more about our success on the [AVTechnology website](#), in its regular newsletter and other promotional channels from the brand in the coming weeks. For more information on the award-winning ZyPerUHD60-2EMP encoder, visit this [link](#) or contact sales@zeevee.com.

About ZeeVee

ZeeVee (www.zeevee.com) is a leading provider of AV distribution technology.
