

Kramer Introduces New All-in-One Pro Matrix at InfoComm 2025

High Performance Video Processing and Fast-Switching Simplifies AV System Deployment and Operation

ORLANDO, June 4, 2025—[Kramer](#), the leading company in audio-visual experiences, unveils its MTX3-88-PR Pro 8x8 4K60 all-in-one matrix that offers high-performance video processing and fast-switching scaling capabilities for AV needs in enterprise, education and government settings and beyond.

This single-box solution is rack-efficient and reduces installation complexity, required cabling and potential points of failure. It is ideal for sharing local and remote content via these key features:

- **Fast switching (<1 second)** enhances presentation experiences with clean and instantaneous content routing for uninterrupted transitions in presentations on local and remote displays.
- **Powerful multi-view and video-wall capabilities** deliver content from multiple sources on individual displays with custom layouts on-the-fly or via configurable presets.
- **Bring your own device (BYOD) connectivity** is made easy and convenient with dual USB device groups for the connection of DP-Alt-Mode-capable USB-C devices as AV presentation sources.
- **Air-casting of any portable device** via the matrix's integrated wireless connectivity and popular content-sharing applications further extend content-sharing capabilities for end-users.
- **A rich set of analog and Dante audio interfaces** enables content to be mixed and processed by the integrated DSP for clear sound distribution.
- Additional features include **a multi-zone amplifier, built-in IP-based control capabilities and AV streaming and recording with enterprise-grade IT-networking and security.**

"The MTX3-88-PR Pro offers a high performing all-in-one solution for meeting rooms and other presentation spaces of all sizes and levels of complexity," said Dorit Bitter, EVP Product & Technology at Kramer.

The MTX3-88-PR Pro is part of Kramer's broader Series 3 audio visual signal management (AVSM) portfolio, offering professionals a complete and integrated solution for diverse audio and visual needs. The versatile model features:

- Eight USB-C, HDMI and air-casting inputs, along with two optional USB-C ports on the first two inputs that support multi-stream transport (MST);
- Eight interchangeable HDBaseT 3.0 input or output ports;
- Eight HDMI outputs; and
- H.264/265 streaming output.

Kramer's Series 3 AVSM portfolio exemplifies Kramer's commitment to delivering high-performance tools that meet the exact specifications of modern AV infrastructures. From small-scale meeting rooms to large, complex installations, the AVSM solutions offer flexibility, reliability and ease of integration, empowering professionals across industries to optimize their AV setups with unmatched operational efficiency.

Live Demonstration at InfoComm 2025

The MTX3-88-PR Pro all-in-one matrix will be demonstrated at Kramer's booth.

About Kramer

Kramer audio-visual experiences power creativity, collaboration, and engagement. From AVSM to advanced cloud-based communication, collaboration and control solutions, Kramer creates audio-visual experiences that are more engaging, more inclusive, and more connected than ever before.

Headquartered in the heart of Startup Nation - Tel Aviv, Israel with locations around the world, Kramer's audio-visual experts are designing the future of engagement technology. Physical and digital boundaries have blurred. But no matter how hybrid our world becomes, our desire for real, human connection will never cease.

Kramer's intuitive, seamless technology breaks down walls, bridges gaps, and makes people feel closer together even when they're far apart.
