

CenterSquare Investment Management Adopts BasisCode Compliance Software Platform

PLYMOUTH MEETING, PA and ATLANTA, January 11, 2018 – CenterSquare Investment Management (www.centersquare.com), a global investment manager focused on actively managed real estate and infrastructure strategies, announced today the implementation of the BasisCode Compliance software platform as its core compliance management system for its global investment staff and clients.

CenterSquare, which has approximately \$9.6 billion in assets under management, became an independent investment firm as of January 2, 2018 having been sold by Bank of New York Mellon to the firm's management and the private equity firm of Lovell Minnick Partners. The firm was founded in 1987 as Urdang Capital Management and was acquired by BNY Mellon in 2006. Lovell Minnick Partners is a private equity firm with expertise in investing in the financial and related business services sectors based in Radnor, PA.

BasisCode Compliance™ (www.basiscode.com) offers the industry's most comprehensive software platform that improves compliance management for financial firms, compliance consultants, law firms and other service providers. The software simplifies and centralizes compliance management, ranging from compliance testing and risk assessment to trading surveillance, insider trading and staff certifications. The platform provides robust reporting features and an easy-to-use portal for seamless interaction with employees and advisors. The rules-based engine makes it simple for users to modify workflow logic through the platform portal.

"As we prepared to become an independent investment management firm, we needed to find a compliance system that fit our unique needs and enabled us to track, report and monitor all compliance-related activities for our global investments and staff. We also wanted a solution that could be easily implemented to meet compliance requirements, document testing and provide easy-to-use digital attestations and questionnaires," said Joseph Law, CenterSquare's Chief Financial Officer and Chief Compliance Officer. "After looking at several firms, we determined BasisCode Compliance's platform had the necessary functionality to support our needs to document our compliance program and risk assessment requirements, including date and time stamped documentation for examinations and extensive reporting and integrated personal securities transaction monitoring."

CenterSquare has installed BasisCode Compliance's Essentials, a core compliance management software suite that helps manage the risk lifecycle from identification to resolution. Essentials offers a basic set of management tools that simplifies management of the core elements of a compliance program and is ideally suited for organizations with simpler compliance management needs. The cloud-based system includes testing and certifications, risk assessment, gifts and entertainment, whistleblower, document portal, robust reporting and a portal for ease of use and seamless interaction with employees. In addition, CenterSquare has adopted the BasisCode Personal Trading and Insider Trading software programs which provide complete work flow analyses totally integrated into a firm's compliance monitoring system.

"We are very pleased that CenterSquare Investment Management has selected BasisCode to be their core compliance software systems provider. As a firm transitioning from a hybrid, legacy system that was designed to serve a much larger enterprise, it was important that we demonstrated that our platform would be able to provide all the services that CenterSquare's investment staff were accustomed to, but offered on a much more manageable and cost-effective platform," said Carlos Guillen, president & CEO, BasisCode Compliance. "For an investment firm like CenterSquare with vast holdings and a global investor base, it was critical that they have a range of functionality within a single platform that is easy to use, with robust capabilities to handle the compliance demands of clients and staff."

About CenterSquare Investment Management
