

IBM Developer Evangelist to Keynote Glue Conference 2017 in Colorado

David Okun, IBM developer evangelist, to keynote leading technical developer conference

ARMONK, N.Y., May 19, 2017 [PRNewswire/](#) -- IBM (NYSE: [IBM](#)) today announced that David Okun, an IBM developer evangelist, will give a keynote address at the 2017 Glue Conference in Broomfield, Colorado. Taking place May 24-25, Gluecon is a developer conference that focuses on serverless architectures, containers, microservices, APIs, DevOps services and other cloud technologies changing how developers evolve applications.

Titled "How to Build an API in 15 Minutes," Okun's presentation will focus on how to reduce the time it takes to develop and build cloud services. Specifically, he'll focus on the open source LoopBack framework as a way to rapidly build REST-based APIs that connect data and services into apps.

Started in 2008, Gluecon prides itself on being a conference highly focused on advanced topics for developers.

Okun's keynote will take place on Wednesday, May 24th at 10:30 a.m. MST.
