

New Cars That Achieve 40-Plus mpg Combined (City And Highway)

IRVINE, Calif., Jan. 17, 2013 [/PRNewswire/](#) -- With each passing year, technological advances in the auto industry and increased consumer expectations combine to raise the bar for new-car fuel economy. Last year's go-to measurement of 40 mpg highway now has been upped by the editors of KBB.com to the even-tougher-to-achieve 40 mpg combined (city and highway) as the latest benchmark in fuel-economy status. New-car shoppers can check out details about the newest fuel-sipping standouts in '[The 40 mpg Cars of 2013](#)' from the editors of Kelley Blue Book's KBB.com. Highlights include:

- KBB.com's expert editors detail 25 new cars that achieve 40-plus mpg combined (city and highway).
- The list includes a wide range of vehicle types and price-points for new-car shoppers, including subcompacts, compacts, SUVs, luxury cars, sedans, hatchbacks, hybrids, electric vehicles, plug-in hybrids and more.
- Vehicles on the list hail from domestic American, European, Japanese, and even some start-up vehicle manufacturers.
- Specific models include (but are not limited to): 2013 Scion iQ EV, 2013 Honda Fit EV, 2013 Ford Focus Electric, 2012 Nissan Leaf, 2013 Chevrolet Volt, 2013 Tesla Model S, 2012 Toyota RAV4 EV, 2012 Fisker Karma, 2013 Volkswagen Jetta Hybrid, and many more.
- Each vehicle description in the story details the vehicle's city/highway/combined mpg, as well as mpge and important range information for the electric vehicles on the list.
