"To succeed in this challenging market, dealers need to focus on gaining a competitive advantage"

Dealer Boost

Dealer Boost is a new free enhancement for all Kelley Blue Book Instant Cash Offer dealer clients, helping them maximize their competitiveness with their offers on their most desired vehicles. Dealer

Boost works by allowing dealers to customize up to 10 rule parameters for markups to offers and any offers matching those parameters automatically receive Dealer Boost to ensure the first offer is their best offer. This new enhancement helps dealers provide their maximum offers on consumer vehicles that are the highest priority to the dealership.

Reserve Offers

For dealers struggling to acquire profitable inventory in a fiercely competitive market, Kelley Blue Book Instant Cash Offer Reserve Offers eliminates dealer competition for a given offer and provides a one-on-one opportunity to acquire a vehicle from a consumer. It provides a competitive advantage by giving dealers exclusive direct access to select consumers who are ready to sell or trade-in their vehicle on KBB.com and Autotrader.

Contact Center

In addition, Kelley Blue Book has partnered with iHeartMedia's Automotive Division to launch Contact Center for Kelley Blue Book Instant Cash Offer. The iHeartMedia 200+ seat automotive contact center – based out of Nashville, Tenn., staffed with professional agents 24 hours a day, seven days a week, 365 days per year, with all calls recorded and going through meticulous quality assurance – works every lead with precision on the dealer's behalf, using the prescribed Kelley Blue Book Instant Cash Offer follow-up process. With Contact Center, dealership

staff does not have to do anything until the customer arrives at the dealership for their appointment. This new feature takes the pressure off a dealer's business development center so dealer reps can focus more on selling and acquiring cars.

How Contact Center for Kelley Blue Book Instant Cash Offer works:

- Customers use the Kelley Blue Book Instant Cash Offer tool online, and the tool generates an offer for the customer's vehicle.
- The call center initiates communication with the customer (typically within two minutes) and continues to work on the dealer's behalf through a precisely determined cadence of phone calls, text messages, and emails to schedule the appointment.
- The customer comes into the dealership for their appointment to finish the transaction, and the dealer decides what to do with the vehicle.
- The dealer receives detailed reporting that showcases the Contact Center program results.

"To succeed in this challenging market, dealers need to focus on gaining a competitive advantage, working smarter, and leveraging every available opportunity, tool, and resource to efficiently acquire the right inventory for their local market," said Randy Kobat, vice president of operations for inventory management solutions at Cox Automotive. "New turnkey enhancements to Kelley Blue Book Instant Cash Offer like Dealer Boost, Reserve Offers, and Contact Center were designed specifically to help dealers acquire more inventory at lower costs, in a way that is easy and requires no additional staff. On top of that, using a tool from Kelley Blue Book – the No. 1 most-trusted third-party automotive brand – creates customer loyalty, improving customer satisfaction by building trust through transparency and creating a frictionless car shopping experience."
