ATLANTA, Oct. 27, 2025 /PRNewswire/ -- Kelley Blue Book, a Cox Automotive brand, has been trusted by consumers for nearly 100 years for car research and pricing. Now, Kelley Blue Book is taking that expertise from the driver's seat to the drive-thru window—announcing an all-new guide to finding the top vehicles and features to make dining on the go safer and more enjoyable, as well as the car-friendly bites that can be picked up along the way.

Backed by research from Kelley Blue Book experts the "Fork in the Road: Drive & Dine Guide" features four individual categories including "On-The-Go Go-Tos," "Co-Pilot Comfort," "Detour Worthy," "Custom Builds," and the best overall manufacturer/car category and restaurant "Kelley Combo," that highlights the top winners.

Considering 1 in 5 meals are eaten in the car, Kelley Blue Book understands that drivers and their passengers are looking for convenient and safe ways to snack on the way to their destination. Certain car models have more streamlined designs to prevent spilling, perfectly house that favorite sauce container, or extra cupholders built in, allowing drivers to focus on the road and trust that back-seat diners are keeping things tidy.

The winners of the cars and restaurants spotlighted in the "Fork in the Road: Drive & Dine Guide" were chosen based on a variety of criteria from experts and consumer research. Vehicles were selected for offering the best features and gadgets that make dining in the car easier, restaurants for their national presence or regional appeal, and food items for being mess-free.

The professionals at Kelley Blue Book tap their extensive knowledge of cars to identify the vehicles and features best fit for on the go snacking.
