IRVINE, Calif., Feb. 24 /PRNewswire/ -- CDMdata, Inc., a Kelley Blue Book company, today announces that National Car Sales, named DealerRater.com's Used Car Dealer of the Year for 2009, has recognized the company for its support in receiving this award through CDMdata products and services. CDMdata provides National Car Sales with its DigitalLot® Solution, allowing dealerships to more effectively manage and market its pre-owned car inventories, and hosts National Car Sales' Web site inventory display with its DigitalLot Web product. In addition, National Car Sales integrated trusted Kelley Blue Book® Suggested Retail and Trade-In Values to its Web site to instill consumer confidence when purchasing a vehicle.

"We know how imperative it is to provide extensive information to customers researching inventories online. Considering the volume of monthly retail sales, we searched for vendor partners that provide products and services with the level of quality and automation that allow us to control our own destiny and success," said David Pilcher, executive vice president of National Car Sales. "CDMdata has been at the core of this strategy for more than seven years. Their technology and support has enabled us to achieve success and provide award winning customer service."

CDMdata's DigitalLot Solution captures and displays photos, creates videos, provides Kelley Blue Book® Digital Window Stickers and values, and promotes dealership inventories online faster, resulting in more sales.
