Getting a bargain is special in good economic times, but in economic times like these -- when the economy is teetering, home prices continue to fall and fuel prices inexplicably bounce up to near-record levels -- getting a bargain is more special than ever.

Despite the rising specter of inflation, there are still plenty of new cars available for less than \$18,000. Of course, all of them will accomplish the basic tasks that cars are engineered to accomplish -- they go, they stop and they keep you out of the weather. But in the kbb.com editors' vast experience with cars costing less than 18 grand, not all of them are cool, and certainly not all of them are fun. But then there are the select few, the cars that not only do everything one wants and needs a car to do, but those that also do it in an engaging and enjoyable manner.

"There are great deals to be had on many new cars under \$18,000, but only a handful of them really possess that cool, difficult-to-describe 'it' factor," said Jack R. Nerad, executive editorial director and executive market analyst for Kelley Blue Book's kbb.com. "Each year the competition keeps getting tougher in this affordable segment, with more personality-filled, amenity-laden, versatile vehicles entering the marketplace. In ranking our top picks this year, the 2012 Fiat 500 took the top prize as our No. 1 choice. After 28 years out of the U.S. market, [Fiat](#) is making huge waves with the new 500 and in our books, it is the leader of the 'Cool Cars' parade."

As you might imagine, two criteria -- fun-to-drive and fun-to-own -- are critical in the roll-up to what the editors freely admit is a very subjective "cool factor," the over-arching number-one criterion. Each of the cars on the list is available for purchase at \$18,000 or less, using Kelley Blue Book's exclusive Fair Purchase Price as the yardstick (Kelley Blue Book's Fair Purchase Price is the price consumers typically are paying for a car, based on actual new-vehicle transactions and updated weekly for changing market conditions). Paying less than sticker also is pretty cool, so here, counting down from numbers 10 to one, are kbb.com's Top 10 Coolest Cars Under \$18,000:

9: [2011 Nissan Cube](#)

We agree with Huey Lewis: it is hip to be square, at least when it comes to a car like the [Nissan Cube](#). The polarizing squares-meet-circles design theme gets a lot of attention, but the Cube's attractiveness is more than skin deep, with features like a sliding and reclining second-row seat, an overabundance of head room and a headliner design that mimics the concentric circles created by a pebble dropped into a pond...

8. [2011 Volkswagen Jetta](#)

Germany! It's a country practically brimming with freaky coolness, exemplified by Rammstein, Kraftwerk and, of course, [Volkswagen](#). The latest rendition of [VW's Jetta](#) captures much of Germany's quirky-cool spirit while being expressly engineered for an American appetite...

6. [2012 Honda Civic](#)

Cool doesn't always have to be in your face. Take the 2012 [Honda Civic](#), for example. Its attributes read like a thought-out online dating profile: Good looking but not flashy, low maintenance and easygoing...but happy be your partner in crime for any adventure (insert winky face here)...

5. [2011 Kia Forte Koup](#)

2. [2011 Mazda3](#)

At some point we're going to have to give the [Mazda3](#) a lifetime achievement award for its unequalled streak of appearances on our annual list of coolest cars.

For the 8th year in a row -- every year of the car's existence, in fact -- the Mazda3 has earned a spot on our list for its standout sheet metal, excellent interior and exceptional driving dynamics...

1. [2012 Fiat 500](#)

Regardless of what the Hello Kitty mafia would like to believe, cute isn't cool. Not usually, anyway. But that's because cute is rarely backed up by substance, as it is in the 2012 Fiat 500...
