

Keurig Dr Pepper to Share 2020 Outlook During Upcoming Investor Call

Company Affirms Guidance for 2020 and Plans to Discuss Operating Environment Amid Coronavirus Outbreak

BURLINGTON, Mass. and PLANO, Texas, March 19, 2020 /PRNewswire/ -- Keurig Dr Pepper (NYSE: KDP) today announced that it plans to participate in a J.P. Morgan hosted investor call at 2:30PM ET today, during which the Company plans to discuss the evolving consumer and retail environment related to coronavirus and the actions the Company is taking to protect employees and ensure business continuity. In making the announcement, the Company affirmed its guidance for 2020, including Adjusted diluted EPS growth of 13% to 15%, net sales growth in the range of 3-4%, and reducing its leverage ratio to the previously-communicated guidance range of 3.5x to 3.8x by year-end 2020, driven by continued exceptionally strong free cash flow.

On the call, KDP will discuss the increase in demand it is experiencing for many of its products and the measures it has enacted to ensure adequate supply.

To access the call, please contact your J.P. Morgan account representative.

FORWARD LOOKING STATEMENTS

Certain statements contained herein are "forward-looking statements" within the meaning of applicable securities laws and regulations. These forward-looking statements can generally be identified by the use of words such as "outlook," "guidance," "anticipate," "expect," "believe," "could," "estimate," "feel," "forecast," "intend," "may," "plan," "potential," "project," "should," "will," "would," and similar words, phrases or expressions and variations or negatives of these words, although not all forward-looking statements contain these identifying words. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements regarding the estimated or anticipated future results of the combined company following the combination of Keurig Green Mountain, Inc. ("KGM") and Dr Pepper Snapple Group, Inc. ("DPSG" and such combination, the "transaction"), the anticipated benefits of the transaction, including estimated synergies and cost savings, the long-term merger targets, and other statements that are not historical facts. These statements are based on the current expectations of our management and are not predictions of actual performance.

These forward-looking statements are subject to a number of risks and uncertainties regarding the company's business and the transaction and actual results may differ materially. These risks and uncertainties include, but are not limited to: (i) the impact the significant additional debt incurred in connection with the transaction may have on our ability to operate our business, (ii) risks relating to the integration of the KGM and DPS operations, products and employees into the combined company and assumption of certain potential liabilities of KGM and the possibility that the anticipated synergies and other benefits of the transaction, including cost savings, will not be realized or will not be realized within

the expected timeframe, and (iii) risks relating to the businesses and the industries in which our combined company operates. These risks and uncertainties, as well as other risks and uncertainties, are more fully discussed in the Company's filings with the SEC, including our Annual Report on Form 10-K filed with the SEC on February 27, 2020, and our subsequent filings with the SEC. While the lists of risk factors presented here and in our public filings are considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Any forward-looking statement made herein speaks only as of the date of this document. We are under no obligation to, and expressly disclaim any obligation to, update or alter any forward-looking statements, whether as a result of new information, subsequent events or otherwise, except as required by applicable laws or regulations.

NON-GAAP FINANCIAL MEASURES

This release includes certain non-GAAP financial measures including Underlying Net Sales, Adjusted operating income, Adjusted net income, Adjusted pro forma net sales, Adjusted pro forma operating income, and Adjusted diluted EPS, which differ from results using U.S. Generally Accepted Accounting Principles (GAAP). These non-GAAP financial measures should be considered as supplements to the GAAP reported measures, should not be considered replacements for, or superior to, the GAAP measures and may not be comparable to similarly named measures used by other companies. Non-GAAP financial measures typically exclude certain charges, including one-time costs related to the transaction and integration activities, which are not expected to occur routinely in future periods. The Company uses non-GAAP financial measures internally to focus management on performance excluding these special charges to gauge our business operating performance, and to provide a meaningful comparison of the Company's performance to periods prior to the transaction. Management believes this information is helpful to investors because it increases transparency and assists investors in understanding the underlying performance of the Company and in the analysis of ongoing operating trends. Additionally, management believes that non-GAAP financial measures are frequently used by analysts and investors in their evaluation of companies, and its continued inclusion provides consistency in financial reporting and enables analysts and investors to perform meaningful comparisons of past, present and future operating results.

To the extent that the Company provides guidance, it does so only on a non-GAAP basis and does not provide reconciliations of such forward-looking non-GAAP measures to GAAP due to the inability to predict the amount and timing of impacts outside of the Company's control on certain items, such as non-cash gains or losses resulting from mark-to-market adjustments of derivative instruments, among others.
