

Cognizant Recognized as a Leader in 2022 Robotic Process Automation Services Providers report by Independent Research Firm

Cognizant has been named a Leader in “The Forrester Wave™: Robotic Process Automation Services, Q2 2022” report. The Forrester report states that Cognizant’s strong digital heritage enables a holistic automation vision that includes people, process, technology, and industry domain.

In its report, Forrester evaluated 15 vendors across 17 criteria grouped into three categories: current offering, strategy, and market presence. The report noted Cognizant’s innovation roadmap which features strong commitments to [Cognizant Neuro.™](#) support for cloud, and deeper integration between process automation and data automation.

“Cognizant’s Robotic Process Automation capabilities and solutions supported by its investment in Cognizant Neuro, provide customers with a powerful combination of industry know-how, tools and accelerators, plus access to our organizational change management advisory,” said Girish Pai, Global Head Intelligent Automation Practice, Cognizant. “We believe being recognized as a Leader by Forrester confirms feedback we receive from clients who tell us they value our collaborative approach to creating effective strategic roadmaps designed to accelerate transformation and improve productivity.”
