

MSA Safety Announces First Quarter Results

PITTSBURGH, April 27, 2022 /PRNewswire/ -- Global safety equipment manufacturer MSA Safety Incorporated (NYSE: MSA) today reported financial results for the first quarter of 2022.

Quarterly Highlights

- Total sales were \$331 million, increasing 7% from a year ago on a reported basis and 9% on a constant currency basis. Acquisitions contributed 5% and organic activity drove 4% of the constant currency growth.
- GAAP operating income was \$42.7 million or 12.9% of sales, compared to \$44.1 million or 14.3% of sales in the same period a year ago. Adjusted operating income was \$53.8 million or 16.3% of sales, compared to \$47.5 million or 15.4% of sales in the same period a year ago.
- GAAP earnings were \$35.5 million or \$0.90 per diluted share, compared to \$36.5 million or \$0.92 per diluted share in the same period a year ago. Adjusted earnings were \$43.6 million or \$1.10 per diluted share, compared to \$37.5 million or \$0.95 per diluted share in the same period a year ago.
- Operating cash flow was \$24.5 million, compared to \$45.6 million in the same period a year ago. The decrease was driven by an increased investment in working capital to respond to the strong growth environment and supply chain challenges.

Comments from Management

"The first quarter finished in line with our expectations as we continued to benefit from strong demand for our products," said Nish Vartanian, Chairman, President and Chief Executive Officer. "Despite a challenging supply chain and inflationary environment, the team executed well and drove 9% constant currency sales growth and incremental margins of approximately 30%. Orders were up double digits in the first quarter, resulting in a book-to-bill ratio of 1.2x and record backlog."

"We continue to deliver on our strategy and are excited by our recently-launched innovative technologies, including our fully-connected ALTAIR io™ 4 Gas Detection Wearable device that begins shipping at the beginning of May, and our V-Gard® C1 Hard Hat with ReflectIR™ Thermal Barrier technology. Furthermore, we have made significant progress integrating Bacharach, and it contributed positively to our results in the quarter," Mr. Vartanian said.

"While the operating environment remains dynamic, we saw demand strengthen through the quarter. We are seeing the effects of supply chain challenges and inflation throughout our regions. Looking forward, I am confident in our ability to execute our long-term vision to be the global leader of safety technologies that protect workers and facility infrastructures. Our balance sheet remains strong and we will continue our balanced approach to investing in growth and returning capital to shareholders," Mr. Vartanian concluded.

*Prior period has been adjusted to reflect the change in inventory accounting method, as described in the Company's fiscal 2021 Annual Report on Form 10-K. Adjustments were made to Americas and International.

(a) Acquisition related costs include advisory, legal, accounting, valuation, and other professional or consulting fees incurred during due diligence and integration. These costs are included in selling, general and administrative expense in the unaudited

Condensed Consolidated Statements of Income. Acquisition related costs also include the acquisition related amortization, which is included in cost of products sold in the unaudited Condensed Consolidated Statements of Income.

(b) Excludes acquisition related amortization, which is included in acquisition related costs above.

The Americas segment is comprised of our operations in Northern North American and Latin American geographies. The International segment is comprised of our operations in all geographies outside of the Americas. Certain global expenses are allocated to each segment in a manner consistent with where the benefits from the expenses are derived.

Adjusted operating income (loss), adjusted operating margin, adjusted earnings before interest, taxes, depreciation and amortization (EBITDA) and adjusted EBITDA margin are the measures used by the chief operating decision maker to evaluate segment performance and allocate resources. As such, management believes that adjusted operating income (loss), adjusted operating margin, adjusted EBITDA and adjusted EBITDA margin are useful metrics for investors. Adjusted operating income (loss) is defined as operating income excluding restructuring charges, currency exchange gains / losses, product liability expense, acquisition related costs, including acquisition related amortization. Adjusted operating margin is defined as adjusted operating income (loss) divided by segment sales to external customers. Adjusted EBITDA is defined as adjusted operating income (loss) plus depreciation and amortization, and adjusted EBITDA margin is defined as adjusted EBITDA divided by segment sales to external customers. Adjusted operating income (loss), adjusted operating margin, adjusted EBITDA and adjusted EBITDA margin are not recognized terms under GAAP, and therefore do not purport to be alternatives to operating income or operating margin as a measure of operating performance. The Company's definition of adjusted operating income (loss), adjusted operating margin, adjusted EBITDA and adjusted EBITDA margin may not be comparable to similarly titled measures of other companies. As such, management believes that it is appropriate to consider operating income determined on a GAAP basis in addition to these non-GAAP measures.

These costs are included in selling, general and administrative expense in the unaudited Condensed Consolidated Statements of Income. Acquisition related costs also include the acquisition related amortization, which is included in cost of products sold in the unaudited Condensed Consolidated Statements of Income.

Management believes that adjusted earnings and adjusted earnings per diluted share are useful measures for investors, as management uses these measures to internally assess the company's performance and ongoing operating trends. There can be no assurances that additional special items will not occur in future periods, nor that MSA's definition of adjusted earnings is consistent with that of other companies. As such, management believes that it is appropriate to consider both net income determined on a GAAP basis as well as adjusted earnings.

About MSA:

Established in 1914, MSA Safety Incorporated is the global leader in the development, manufacture and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive product line is used by workers around the world in a broad range of markets, including the oil, gas and petrochemical industry, the fire service, the construction industry, mining and the military. MSA's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, industrial head

protection products, firefighter helmets and protective apparel, and fall protection devices. With 2021 revenues of \$1.4 billion, MSA employs approximately 4,800 people worldwide. The company is headquartered north of Pittsburgh in Cranberry Township, Pa., and has manufacturing operations in the United States, Europe, Asia and Latin America. With more than 40 international locations, MSA realizes approximately half of its revenue from outside North America. For more information visit MSA's web site at www.MSAafety.com.

Cautionary Statement Regarding Forward-Looking Statements:

Except for historical information, certain matters discussed in this press release may be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include but are not limited to all projections and anticipated levels of future performance. Forward-looking statements involve risks, uncertainties and other factors that may cause our actual results to differ materially from those discussed herein. Any number of factors could cause actual results to differ materially from projections or forward-looking statements, including without limitation global economic conditions, spending patterns of government agencies, competitive pressures, the impact of acquisitions and related integration activities, product liability claims, the success of new product introductions, currency exchange rate fluctuations and the risks of doing business in foreign countries. A full listing of these risks, uncertainties and other factors are detailed from time-to-time in our filings with the United States Securities and Exchange Commission ("SEC"), including our most recent Form 10-K filed on February 18, 2022. You are strongly urged to review all such filings for a more detailed discussion of such risks and uncertainties. MSA's SEC filings are readily obtainable at no charge at www.sec.gov, as well as on its own investor relations website at <http://investors.MSAafety.com>. MSA undertakes no duty to publicly update any forward-looking statements contained herein, except as required by law.

Non-GAAP Financial Measures:

This press release includes certain non-GAAP financial measures. These financial measures include organic constant currency revenue growth, adjusted operating income, adjusted operating margin, adjusted EBITDA, adjusted EBITDA margin, adjusted earnings, and adjusted earnings per diluted share. The presentation of these financial measures does not comply with U.S. generally accepted accounting principles ("GAAP"). For an explanation of these measures, together with a reconciliation to the most directly comparable GAAP financial measure, see the Reconciliation of As Reported Financial Measures to Non-GAAP Financial Measures in the financial tables section above.
