

MSA Safety FieldServer ProtoNode Gateway Now Available in Pacific-Asia Region

KUALA LUMPUR, September 30, 2025 – MSA Safety, Inc. (NYSE: MSA), a global leader in the development of advanced safety products and solutions that help protect people and facility infrastructures, today announced the launch of the **FieldServer ProtoNode Gateway** industrial connectivity solution in the Pacific-Asia Region.

The **FieldServer ProtoNode Gateway** provides remote monitoring capabilities via cloud communications to various fixed detection monitoring systems, including all MSA Safety Modbus and BACNet protocol Fixed Gas and Flame Detectors in the field, as well as devices from other manufacturers. FieldServer Gateways are versatile, cyber-secure, easy-to-configure devices that serve as entry points to the cloud for data communication and processing between internet-connected products and network protocols.

Available connectivity options for the FieldServer ProtoNode Gateway are **Modbus RTU (serial)** and **Modbus TCP (Ethernet)** protocols and **BACNet IP** protocols. The connectivity enables remote monitoring and control; cloud-based alarm notifications via email for faults or alarms; and data visualization through MSA Grid dashboards.

MSA Safety detection solutions compatible for the FieldServer ProtoNode Gateway include the General Monitors® FL500/FL500-H2 Flame Detector, General Monitors® FL5000 Flame Detector, General Monitors® S5000 Gas Detector, Observer® i Ultrasonic Gas Leak Detector, Senscient ELDS™ Laser Based Open Path Gas Detector (OPGD), SENTRY i® Fire and Gas Detection Controller, SUPREMATouch, and ULTIMA® X5000 Gas Detector.

Key features enabled by the FieldServer ProtoNode Gateway include:

- **Worksite Remote Monitoring and Notifications:** Enhanced site safety with secure remote access for diagnostics, monitoring, alarming, and configuration of products in the field.
- **Asset Management and Performance:** Supports remote access and monitoring of MSA Safety detectors and controllers and third-party products/systems for a concise understanding of each device's function and status.
- **Compliance Insights and Management:** Streamline inspections at a glance with calibration audits and functional verifications

The FieldServer ProtoNode Gateway is available now through MSA Safety and authorized channel partners. To learn more about the device, [click here](#).

About MSA Safety

MSA Safety Incorporated (NYSE: MSA) is the global leader in advanced safety products, technologies and solutions. Driven by its singular mission of safety, the company has been at the forefront of safety innovation since 1914, protecting workers and facility infrastructure around the world across a broad range of diverse end markets while creating sustainable value for shareholders. With 2024 revenues of \$1.8 billion, MSA Safety is headquartered in Cranberry Township, Pennsylvania and employs a team of more than 5,000 associates across its more than 40 international locations.
