

Gregory Ross, MD, CPPS, Named Chief Quality and Safety Officer for Nemours Children's Health in Florida

ORLANDO, Fla. (Sept. 8, 2025)– Nemours Children's Health, one of the nation's largest multistate pediatric health systems, has named Gregory Ross, MD, CPPS, Chief Quality and Safety Officer, Florida. In this role, he will oversee quality and safety across the organization's Central and North Florida regions. He will also collaborate with his Nemours Children's Health, Delaware Valley, counterparts and those at partner hospital institutions in support of key quality and safety initiatives.

“Dr. Ross is a passionate clinician and brings a breadth of experience and expertise to this role,” said Daniel Podberesky, MD, Chief Medical Officer for Nemours Children's Health, Central Florida. “His leadership will help us further enhance our quality and safety culture for the continuous delivery of high-quality care for the patients and families we serve and a safe practice environment for our associates.”

Prior to joining Nemours Children's, Dr. Ross served as Patient and Employee Safety Officer for Atrium Wake Forest Baptist Health and Co-Medical Director for Brenner Children's Hospital. He has also served as Professor of Pediatrics and Critical Care at Atrium Wake Forest Baptist Health.

“Nemours Children's Health has a demonstrated focus on upholding the highest standards of care for its patients, and I look forward to continuing to expand upon the incredible work here that ultimately contributes to creating the healthiest generations of children,” said Gregory Ross, MD, CPPS, Chief Quality and Safety Officer, Florida, for Nemours Children's Health. “I will work alongside our dedicated associates and teams to ensure every child receives the safest, most effective care possible.”

Dr. Ross's medical training includes a fellowship in pediatric critical care at the University of California San Francisco Medical Center and a pediatric residency at Jackson Memorial Hospital. He earned his medical degree from the University of Miami School of Medicine.

Dr. Ross has been actively involved with national organizations including the American Academy of Pediatrics, Children's Hospital Association, and Society of Critical Care Medicine to advance practices and expertise that will help drive continuous quality and safety excellence and clinical preeminence.

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, which includes two free-standing children's hospitals and a network of more than 70 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also addressing children's needs well beyond medicine. In producing the highly acclaimed, award-winning pediatric medicine podcast Well Beyond Medicine, Nemours underscores that commitment by featuring the people, programs and partnerships addressing whole child health. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, [Nemours KidsHealth.org](https://www.nemourskidshealth.org).

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves. For more information, visit [Nemours.org](https://www.nemours.org).
